8th World Congress on Material Chemistry & Nanomaterials
Day 1, September 23, 2019 | Paris, France
Registration
Opening Ceremony
Introduction
Keynote Forum
Title: Controlling sintering to obtain nano/submicronic microstructures: from the modeling to advanced approaches like flash sintering/synthesis.
Charles Maniere, Normandie University, France
Title: Non-wovens carbon nanofibers doped and covered with carbon nanotubes as binderless hybrid hierarchical electrode for lithium storage
Elaine Y. Matsubara, University of São Paulo, Brazil
Title: Spectrofluorometric assay using gold nanoparticles and cationic dye Rhodamine B for selective and sensitive detection of L-Cysteine in aqueous environment
Pabitra Kumar Paul, Jadavpur University, India
Title: Functionalized Al2O3 Nanoparticles from Superhydrophobic Derived Surfaces to Enhanced Oil Recovery Applications
Shirin Alexander, Swansea University, UK
Keynote Slot Available
Group Photo and Tea Break
Workshop Slot Available
Lunch Break
Oral Session - I:
Title:Multi-Scale Design for Structural Energy Devices
Xinhua Liu, 1Dyson School of Design Engineering, UK
Title:Reduction of Cr(VI) in aqueous solutions using ZnO nanoparticles
Maram Ali Ahmed Musa, Universiti Putra Malaysia, Malaysia
Title: Novel HLC-HA-CCS and PVA-CMC-PEG hydrogels for wound dressing
Chenhui Zhu, Northwest University, China
Title: Bioenergy, environment and Sustainable development
Abdeen Mustafa Omer, Energy Research Institute, U.K
Speaker Slot Available
Speaker Slot Available
Tea Break
Session Adjournment
Day 2 Program will Update Soon

About Paris

Paris is the capital of France and is a major European city and a global center for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Beyond such landmarks as the Eiffel Tower and the 12th-century, Gothic Notre-Dame cathedral, the city is known for its cafe culture and designer boutiques Paris has been one of Europe's major centres of finance, commerce, fashion, science, and the arts. Paris is often referred to as The City of Light, both because of its leading role during the Age of Enlightenment, and more literally because Paris was one of the first large European cities to use gas street lighting on a grand scale on its boulevards and monuments.
