Meetings International extends its welcome to "18th International Conference on Materials Research and Technology" scheduled on June 22- 23, 2020 in Osaka, Japan, with the theme of "Material Research and engineering is proliferating the limitations of materials ".

Material Research 2020 will serve an excellent experience and opportunities to enhance one's career. Join us in Osaka. It is comprised of 12 tracks designed to offer comprehensive sessions that address current trends in Material Research, and many more. Material Research 2020 composed of symposiums by world class researchers and experts.

Conference Highlights :

- Materials Science and Metallurgy
- Advanced Materials
- Nano Technology
- Material Synthesis and Characterization
- Optical, Magnetic and Electronic Materials
- Nanotechnology
- Piezoelectric Materials and 3-D Printing
- Materials in Healthcare
- Market Demand and Future
- Ceramics and Textiles Industries
- Polymer Science and Engineering

About Osaka

Osaka is a large port city and commercial center on the Japanese island of Honshu. It's known for its modern architecture, nightlife and hearty street food. The 16th-century shogun ate Osaka Castle, which has undergone several restorations, is its main historical landmark. It's surrounded by a moat and park with plum, peach and cherry-blossom trees. Sumiy-oshi-taisha is among Japan's oldest Shinto shrines. Osaka, one of Japan's largest cities, lies on the south coast of western Honshu at the point where the River Yodo flows into the wide sweep of Osaka Bay, which opens out into the Pacific.
