18TH INTERNATIONAL CONFERENCE ON

MATERIALS RESEARCH AND TECHNOLOGY

JUNE 22- 23, 2020 | OSAKA, JAPAN

Material Research
2020

Invitation

Material Research 2020

Dear Attendees,

Meetings International proudly announces the 18th International Conference on Materials Research scheduled during June 22- 23, 2020, Osaka, Japan. The conference emphasizes the theme "Marerial research and engineering is proliferating the limitations of materials".

Material research area covers a wide range of growing markets, such as engineering resins, plastic alloys and blends, advanced batteries and fuel cells, and soon. The technological curriculum of Materials research 2020 is unprecedented, discussing structure, properties, storage and quality across the population of materials. Materials Technology 2020 brings together researchers, engineers, students, suppliers and business leaders to discuss current research and technical developments and shape the future of science and technology in materials.

Sincerely,

Operating Committee

Conference Highlights

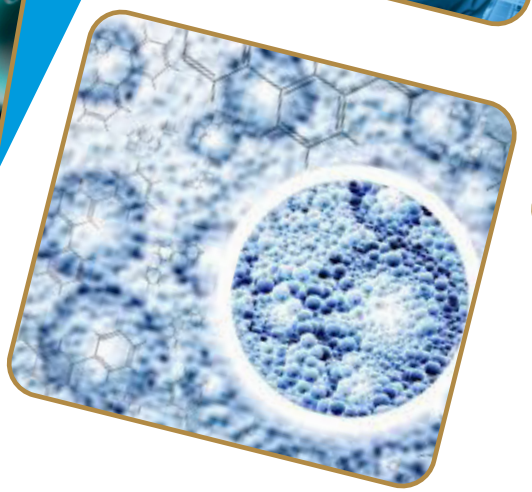

Material Research 2020

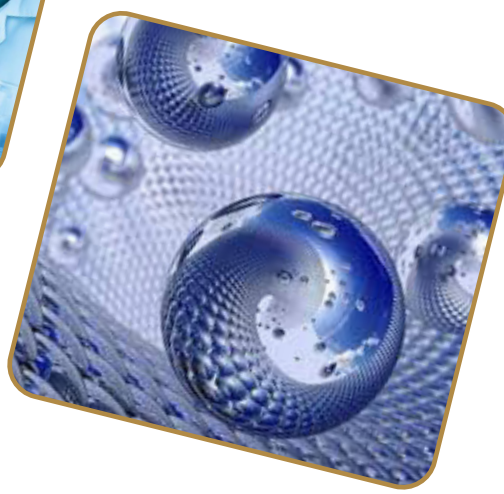

- Materials Science and Metallurgy
- Advanced Materials
- Nano Technology
- Material Synthesis and Characterization
- Optical, Magnetic and Electronic Materials
- Nanodevices and Nanosensors
- Piezoelectric Materials and 3-D Printing
- Materials in Healthcare
- Bio-Nanomaterials and Tissues Engineering
- Ceramics and Textiles Industries
- Polymer Science and Engineering
- Sustainable Energy and Development

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore Osaka

Osaka,Japan is a major financial center of Japan. It is home to the Osaka Securities Exchange as well as the multinational electronics corporations Panasonic and Sharp. Famous landmarks in Osaka include Osaka Castle - which played a pivotal role in the Siege of Osaka and was featured in the 1980 American television mini-series “Shogun”) and Shitennō-ji - the oldest Buddhist temple in Japan.
