15TH INTERNATIONAL CONFERENCE ON

MATERIALS CHEMISTRY & SCIENCE

MAY 27-28, 2020 | TOKYO, JAPAN

Materials chemistry 2020

Invitation

Dear Attendees,

Meetings International proudly announces the 15th International Conference on Materials chemistry & Science scheduled during May 27-28 2020 in Tokyo, Japan. The conference emphasizes the theme "ADVANCING EXCELLENCE IN MATERIAL CHEMISTRY".

Materials chemistry 2020 is an excellent platform for professionals and who are working in the field. This is going to be the largest and most promising international conference where Material Science professionals and decision-makers will come to discuss various aspects. Materials chemistry Congress offers a platform to globalize the invention by introducing among scholastic associations and learning exchange from research to medical science. Meetings International has been associated with national and international associations, corporations and high-level individuals, dedicated to hosting world-class conferences and events. Meetings Int. supports broad scope research and peer review at a broad range of specialists around the world.

Sincerely,

Operating Committee

Materials chemistry 2020

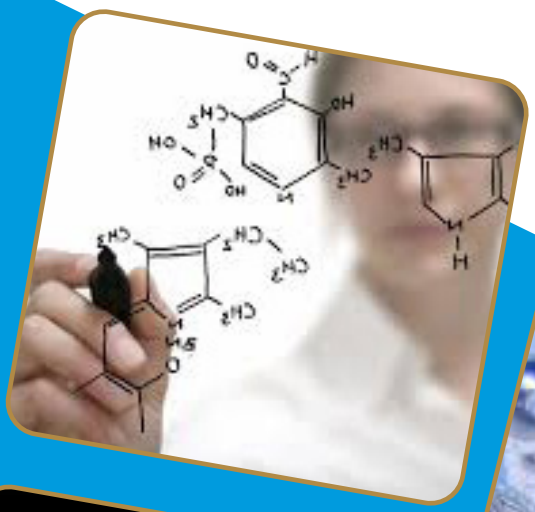

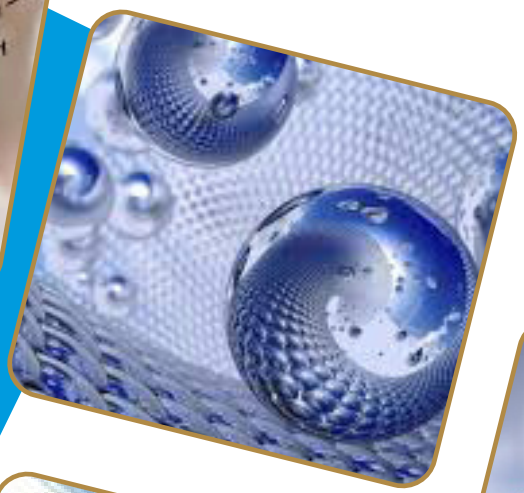

Conference Highlights

- Synthesis and Design of New materials
- Chemistry of Novel materials
- Nanomaterials and Nanotechnology
- Emerging technologies in Materials science
- Chemistry of Organic, Inorganic Materials
- Computational Material chemistry
- Glasses & Ceramics, Composites Materials
- Chemical Synthesis of Nanomaterials
- Biomaterials & Chemical engneering
- Semiconducting and Quantum Materials

To identify the future directions of research

Peer review and high quality publication

Quality research

Head Management/CEO/Manager

Dean

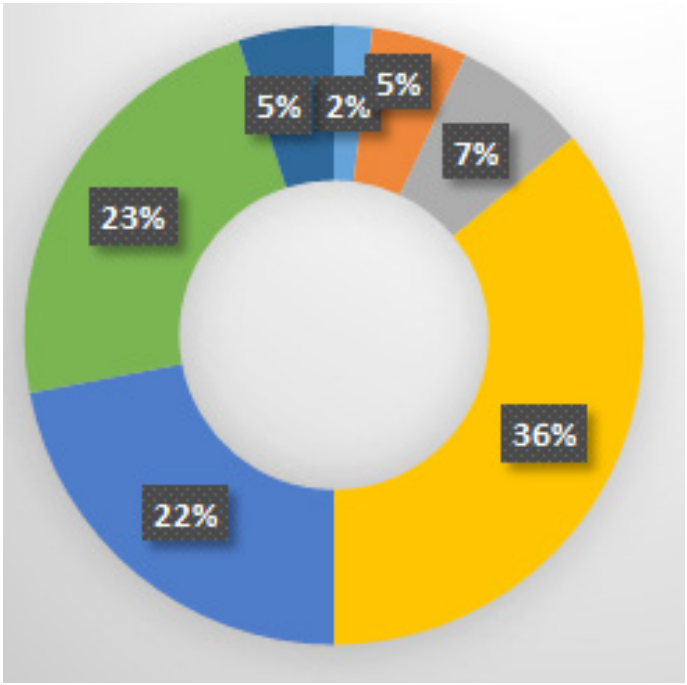

Director

Professor

Students

Research Scolars

Business Enterprenures

Explore Tokyo

Tokyo, at one time named “Edo” and virtually which means “east capital,” has been the capital town of Japan since 1604. It’s a population of over thirty eight million folks, and additional flock to the town on weekdays for work and weekends for looking and rubber-necking. It is a blinding metropolis that’s additional sort of a cluster of many cities, with an enormous size of one, 360 sq. miles. Ample tourists visit Japan every year for its distinctive traditions, rubber-necking spots, and fascinating subcultures.. Northern prefectures like Yezo, Aomori, and urban centre are known for winter sports and acquire many feet of snow per annum. Southern prefectures like those in island get extremely hot within the summer.
