Day 1 18-Mar-19	
9:00-9:30	Registrations
9:30-9:45	Opening Ceremony
9:45-10:00	Introduction
Keynote Forum	
10:00-10:45	Tittle: A Gauge transformation theory for metamaterials
	Woon Siong Gan, Acoustical Technologies Singapore Pte Ltd, Singapore
Group Photo	
Networking & Refreshment Break, 10:45-11:05	
11:05-11:50	Tittle: TBA
	Masanobu Nogami, Kindai University, Japan
11:50-12:20	Tittle: Novel adsorption materials for the recovery of noble metal fission products from spent nuclear fuels
	Yuezhou Wei , Guangxi University, China
12:20-12:50	Title: Actinide analysis by ICP-MS/MS and actinide separation
	Tatsuya Suzuki, Nagaoka University of Technology, Japan
Lunch Break: 12:50 -14:00	
	Oral Session 1
14:00-14:30	Title: Effects of hot-rolling on microstructure and electrochemical discharge behavior of Mg-6Al Alloy as anode for Mg-air battery
	Guangxin Wang, Henan University Of Science And Technology, China
14:30-15:00	Title: Mutual separation of trivalent lanthanides in nitric acid solution by a novel hydrophobic ionic liquid including N,N,N',N'-tetrakis(2-pyridylmethyl)-1,3-diaminopropane-2-amido structure: A soft N and hard O donor combined strategy
	Hao Wu, Tokyo Institute of Technology, Japan
15:00-15:30	Title: A novel pH-responsive material containing residues of glycine and maleic acid as a super adsorbent for the fast removal of dyes and toxic metal ions
	Ali Shaikh Asrof, King Fahd University of Petroleum & Minerals, Saudi Arabia
15:30-16:10	Title: TBA
	TBA
Networking & Refreshment Break, 16:10-16:30	
Panel Discussion	
Day 2	
19-Mar-19	
Keynote Forum	
	Introduction
10:00-10:40	Title: Replacing candles with candlelight OLED
	Jwo-Huei Jou, National Tsing Hua University, Taiwan
Networking & Refreshment Break, 10:40-11:10	
11:10-11:50	Title: 50th Anniversary of the transport theory in condensed matter physics
	Woon Siong Gan, Acoustical Technologies Singapore Pte Ltd, Singapore
11:50-12:20	Title: Characterizing silicon/platinum-based catalytic motors with near ambient pressure photoemission
	Jordi Fraxedas, Catalan Institute of Nanoscience and Nanotechnology, Spain
12:20-12:50	Tittle: Biogenic minerals for removal of contaminants
	Toshihiko Ohnuki, Tokyo Institute of Technology, Japan
Lunch Break: 12:50 -14:00	
	Oral Session 2
14:00-14:45	Title: Synthesis and characterization of Ag-Fe3O4 nanoparticles and evaluation of their photo catalytic activity
	Muhammad Saeed, Government College University Faisalabad, Pakistan
14:50-15:20	Title: Liquid crystals nanoscience in golden oppurtinities for novel switching
	Kaushik Pal, Bharath University, India
Poster Presentations(15:20-16:00)	
Poster Judge:	
P1	TBA
	TBA
P2	TBA
	TBA
Networking & Refreshment Break, 16:00	
	Panel Discussion
Award Ceremony	
This program is tentative and it may be subjected to modifications
