

EuroSciCon

3rd International Conference on

Materials Technology and Manufacturing Innovations

January 20-21, 2020
Barcelona, Spain

Theme:

Fuelling the core of innovations in Materials Science

EuroSciCon

Materials Manufacturing

2020

Invitation

Welcome to Barcelona, Spain the Independent city, and the city the most foreigner-friendly. With hundreds of identified districts, Barcelona has been dubbed a “city of neighborhoods.” EuroSciCon is proud to host the 3rd International Conference on Materials Technology and Manufacturing Innovations, January 20-21, 2020 in Barcelona, Spain. This year’s theme is “Fuelling the core of innovations in Materials Science”. Materials-Manufacturing 2020 will provide an unprecedented opportunity for researchers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite materials scientists, and engineers, professors, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Materials-Manufacturing 2020 Conference is the perfect venue not only to dive into your particular materials science interests but also to expand the scope of your knowledge. 11 tracks are devoted to subjects such as the metallurgy and materials science, manufacturing innovations, nanotechnology, characterization and testing of materials, biomaterials, materials in industry, materials science and engineering, advanced materials and devices, materials chemistry, as well as ceramics and composite materials, and the regulatory arena.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant materials research forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

January 20-21, 2020

Materials Manufacturing

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ materials scientists and engineers accessing the website, Materials-Manufacturing 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Materials-Manufacturing 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

January 20-21, 2020
Barcelona, Spain

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Materials Manufacturing

2020

Who'd be attending?

3rd International Conference on Materials Technology and Manufacturing Innovations plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials and Manufacturing Researchers, Regulatory Professionals, Materials Science Professionals, Laboratory Directors and Researchers, Professors, Materials Engineers and Materials Scientists and others who stay plunged in learning and practice of the discipline of Materials and Manufacturing.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Metallurgy and Materials Science
- Manufacturing Innovations
- Nanotechnology
- Characterization and Testing Of Materials
- Biomaterials
- Materials in Industry
- Materials Science and Engineering
- Advanced Materials and Devices
- Energy Materials
- Materials Chemistry
- Ceramics and Composite Materials

About Destination Barcelona

Barcelona is the capital of the region known as Catalonia. It has its very own flag and a language called Catalan which you see on the street signs. Many of Barcelona's most famous attractions are building designed by the same person – Antoni Gaudi. Along with the works of Antoni Gaudi there is lots more to see in Barcelona. These include the Picasso Museum which documents the work of the famous artist, the city's cathedral which dates back to the 13th century, and Museu d'Historia de Catalunya which tells the history of the state. Barcelona is where you will find one of Europe's most famous streets known as La Rambla. Broken up into five different sections, attractions along it include the famous Teatre del Liceu which dates back to 1847, and the colourful Mercat de St Josep de La Boqueria.
