19th International conference on

Material Research and Technology

May 21-22, 2021 | Osaka, Japan

https://www.meetingsint.com/conferences/materialsresearch

Invitation

Dear Attendees,

Meetings International proudly announces the ***19th International conference on Material Research and Technology*** scheduled during May 21-22, 2021 in Osaka, ***Japan***.

The conference emphasizes the theme "Innovative approach and recent developments in Materials Research & Technology".

"International Conference on Materials Research and Technology" will take place in May 21-22, 2021. Osaka, Japan Materials Technology 2021 provides the basic ideas for innovating new sustainability materials and technologies. The theme of Innovative approach and recent developments in Materials Research & Technology. Material research area covers a wide range of growing markets, such as engineering resins, plastic alloys and blends, advanced batteries and fuel cells, and soon. The technological curriculum of Materials research 2021 is unprecedented, discussing structure, properties, storage and quality across the population of materials. Materials Technology 2021 brings together researchers, engineers, students, suppliers and business leaders to discuss current research and technical developments and shape the future of science and technology in materials.

Sincerely,

Operating Committee

Materials Research 2021

Conference Highlights

- Sustainable Energy and Development
- Advanced Materials & Functional Devices
- Engineering Materials & Composite Materials
- Advanced Bio-Materials & Bio-Devices
- Nano Technology
- Sustainable Energy and Development
- Piezoelectric Materials and 3-D Printing
- Nano Medicine & Drug Delivery
- Materials Science and Metallurgy
- Optical, Magnetic and Electronic Materials
- Cluster Science & Nano-Toxicology
- Magnetic & Multicellular Materials
- Carbon Nano structures & Graphene
- Analytical Techniques and Instrumentation

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

Osaka Attractions

Explore Osaka

Osaka is a large port city and commercial center on the Japanese island of Honshu. It's known for its modern architecture, nightlife and hearty street food. The 16th-century shogun ate Osaka Castle, which has undergone several restorations, is its main historical landmark. It's surrounded by a moat and park with plum, peach and cherry-blossom trees. Sumiyoshi-taisha is among Japan's oldest Shinto shrines. Osaka, one of Japan's largest cities, lies on the south coast of western Honshu at the point where the River Yodo flows into the wide sweep of Osaka Bay, which opens out into the Pacific. Its location on the Yodo delta with its network of watercourses and canals spanned by more than a thousand bridges has, deservedly, earned Osaka the nickname of the "Venice of the East." While the origins of Osaka date back to the mythological early days of the Japanese Empire, today it is undoubtedly one of the most modern cities in Japan, boasting a futuristic skyline along with countless impressive examples of modern arc

Venue
Osaka,Japan

Important Dates

Early Bird: October 15, 2020

Abstract Submission Deadline: October 20, 2020
