Invitation

Meetings International proudly announces the ***International Conference on Materials Science & Engineering*** scheduled during ***June 25-27, 2018*** in ***Rome, Italy***. The conference emphasizes the theme "***Advancing the Research & Innovation on Material Science for the Global Prosperity***".

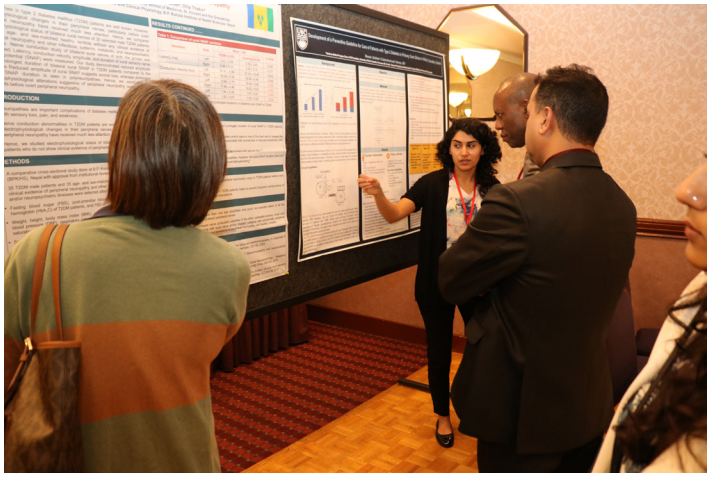

Meetings International provides an international dais for scientists and material science experts to exchange ideas, knowledge and networking at its **100+ International Conferences**. Materials are so important in the development of civilization. Materials Science 2018 is focussed on the development of new and better materials for the next generation of engineering applications. It views the fundamentals of metals, polymers, ceramics, nanomaterials, biomaterials, electronic materials and composites, emphasising the relationships between atomic structure and microstructure as well as the properties, processing and performance of the material. In this new century, sustainability and environmental impact lie at the core of materials development and application.

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

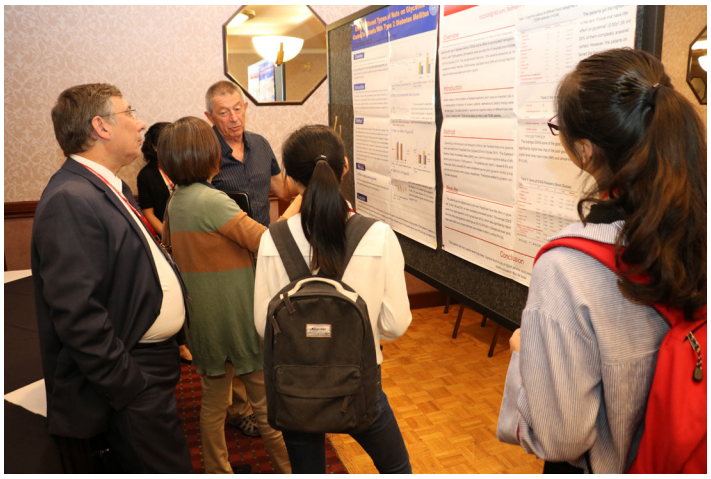

MATERIAL SCIENCE MEETING 2018

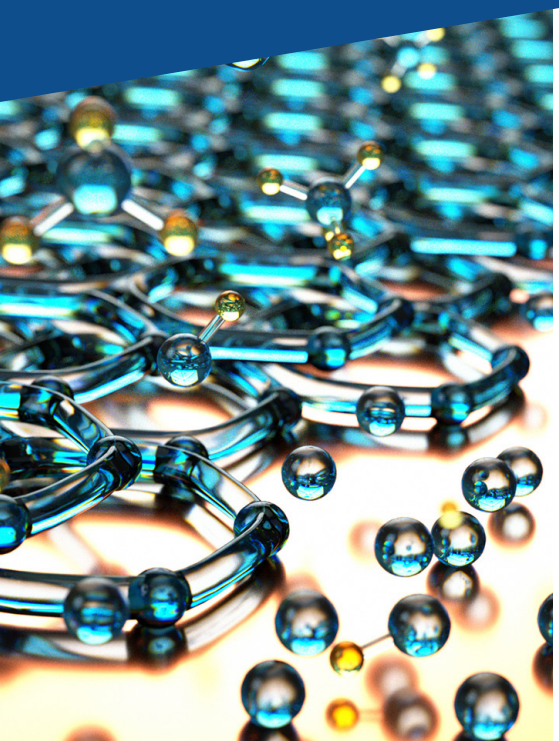

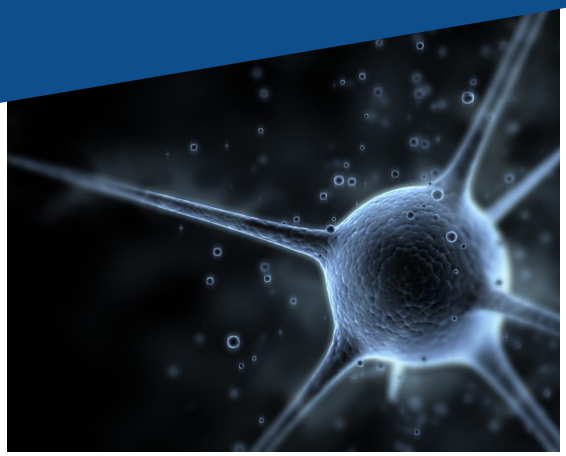

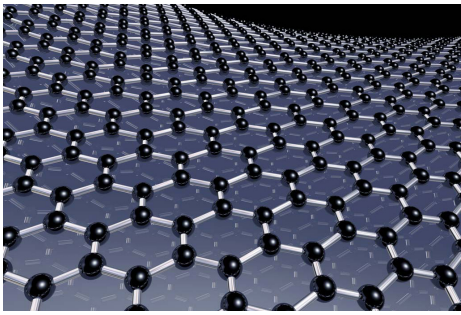

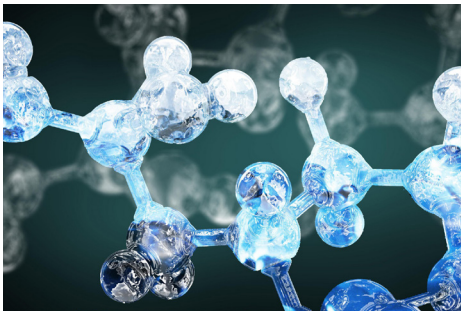

Conference Highlights

- Materials Science and Engineering
- Advanced Materials and Devices
- Batteries and Energy Materials
- Biomaterials and Healthcare
- Biomaterials and Tissue Engineering; Biomaterials and Medical Devices
- Catalytic Materials
- Ceramics and Composite Materials
- Electronic, Optical and Magnetic Materials
- Graphene and 2D Materials
- Metals, Mining, Metallurgy and Materials
- Characterization and Testing of Materials
- Computational Materials Science
- Mechanics, Characterization Techniques and Equipments
- Emerging Smart Materials
- Polymer Science and Engineering
- Materials for Green Technology
- Nanomaterials and Nanotechnology
- Materials Engineer Training and Career
