About Toronto

Toronto, the capital of the province of Ontario, is a major Canadian city along Lake Ontario's north-western shore. It's a dynamic metropolis with a core of soaring skyscrapers, all dwarfed by the iconic, free-standing CN Tower. Toronto also has many green spaces, from the orderly oval of Queen's Park to 400-acre High Park and its trails, sports facilities and zoo. Toronto is located on the shore plain beside its harbour. There is a fairly abrupt rise 4 km inland which marks the shoreline of Lake Iroquois, a lake formed by glaciers 12,500 years ago that had a much higher water level than Lake Ontario.

French fur traders had known about the Toronto Passage since the early 1600s, and in 1720 they built a small store on the Humber River. This post failed financially and was abandoned in 1730. In 1750 the French built another small trading post. Fort Rouillé (or Fort Toronto), located in Toronto's present-day Exhibition Grounds, was burned in 1759 by its French garrison during a retreat from British forces.
