International Conference on

Materials Science & Engineering

March 21-22, 2022 | Berlin, Germany

https://www.meetingsint.com/conferences/materials-technology

Invitation

Dear Attendees,

Meetings International proudly announces the 15 th International Conference on Materials Science & Technology scheduled during March 21-22, 2022, Berlin, Germany

The conference emphasizes the theme "MATERIAL SCIENCE OF TODAY IS THE INNOVATION OF TOMORROW".

The Materials Science 2022 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. It will give an overall stage to look at about the present and future troubles in Materials Science guidance, continuing with preparing, Engineering , center around points. With huge delight, Hematology and Education alongside the Organizing Committee Members welcome every one of the members from all over the globe to attend the conference. It provides a great opportunity for establishing strong relations between the Materials Science Professors, Researchers, the general public, and government so that they can work together to achieve healthier mouths and happier lives. Materials Science 2022 focuses mainly on Material Science and Technology, Advanced Materials, Nano Technology Ceramics and Composite Materials, Metals and Metallurgy, Biomaterials and Biodevices. Materials Science 2022 conference operation committee is providing a platform for all the budding young researchers, young investigators, postgraduate/ Master students, PhD. students and trainees to showcase their research and innovation.

Sincerely

Sincerely,

Operating Committee

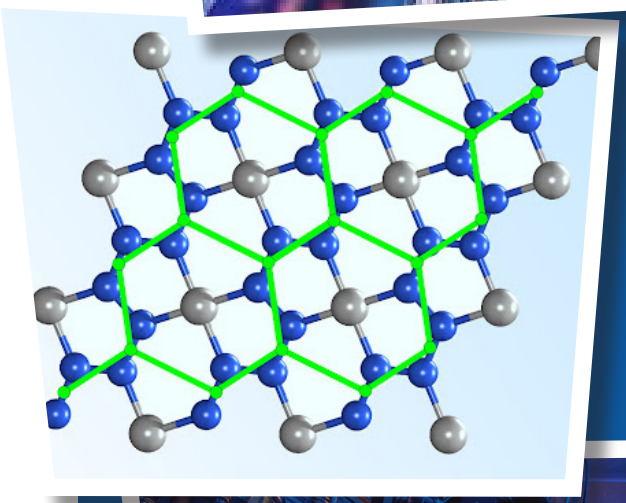

Materials Science 2022

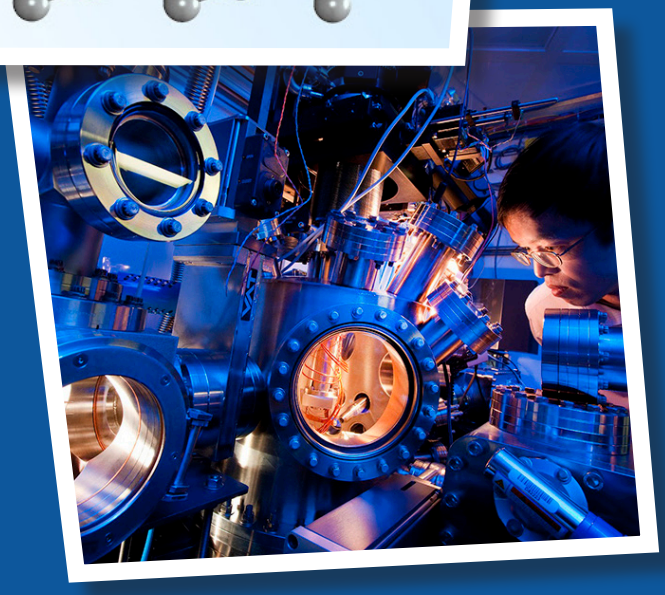

Conference Highlights

- Hybrid Polymer-Based Materials
- Piezoelectric Materials
- Ceramics & Composite Materials
- Materials Science & Materials Engineering
- Nano Technology & Nano Materials
- Mining, Metallurgy & Materials Sciences:
- Sustainable Energy & Development
- Nuclear Materials & Emerging Smart Materials
- Polymer Science & Engineering

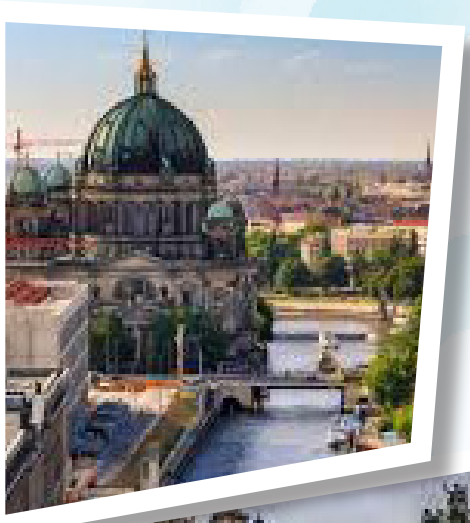

Berlin Attractions

Explore Berlin

Berlin, capital and chief urban centre of Germany. The city lies at the heart of the North German Plain, athwart an east-west commercial and geographic axis that helped make it the capital of the kingdom of Prussia and then, from 1871, of a unified Germany. Berlin's former glory ended in 1945, but the city survived the destruction of World War II. It was rebuilt and came to show amazing economic and cultural. Germany's division after the war put Berlin entirely within the territory of the German Democratic Republic (GDR, or East Germany). The city itself echoed the national partition—East Berlin being the capital of East Germany and West Berlin a Land (state) of the Federal Republic of Germany (FRG, or West Germany).

West Berlin's isolation was later reinforced by the concrete barrier erected in 1961 and known as the Berlin Wall. Its status as an enclave made Berlin a continuous focus of confrontation between the Eastern and Western powers as well as a symbol of Western lifestyle for 45 years.

Venue
Berlin, Germany

Important Dates

Early Bird: ***30th December, 2021***
On Spot Registration: ***March 20, 2022***
Abstract Submission Deadline: ***March 18, 2022***
