

EuroSciCon

2nd International Conference on

Materials Technology and Manufacturing Innovations

October 04-05, 2018
Moscow, Russia

Theme:

Experimenting materials to rewrite the history

EuroSciCon

Materials-Manufacturing

2018

Invitation

Welcome to Moscow, Russia the city that never sleeps, and the city the most foreigner-friendly. EuroSciCon is proud to host the 2nd International Conference on Materials Technology and Manufacturing Innovations, October 04-05, 2018 in Moscow, Russia. This year's theme is Experimenting Materials to rewrite the history. Materials-Manufacturing 2018 will provide an unprecedented opportunity for researchers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite materials scientists, and engineers, professors, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Materials-Manufacturing 2018 Conference is the perfect venue not only to dive into your particular materials science interests but also to expand the scope of your knowledge. 11 tracks are devoted to subjects such as the metallurgy and materials science, manufacturing innovations, nanotechnology, characterization and testing of materials, biomaterials, materials in industry, materials science and engineering, advanced materials and devices, materials chemistry, as well as ceramics and composite materials, and the regulatory arena.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant materials research forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ materials scientists and engineers accessing the website, Materials-Manufacturing 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Materials-Manufacturing 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

October 04-05, 2018
Moscow, Russia

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Materials-Manufacturing

2018

Who'd be attending?

2nd International Conference on Materials Technology and Manufacturing Innovations plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials and Manufacturing Researchers, Regulatory Professionals, Materials Science Professionals, Laboratory Directors and Researchers, Professors, Materials Engineers and Materials Scientists and others who stay plunged in learning and practice of the discipline of Materials and Manufacturing.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Metallurgy and Materials Science
- Manufacturing Innovations
- Nanotechnology
- Characterization and Testing Of Materials
- Biomaterials
- Materials in Industry
- Materials Science and Engineering
- Advanced Materials and Devices
- Energy Materials
- Materials Chemistry
- Ceramics and Composite Materials

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Journal of Material Sciences & Engineering
- Journal of Applied Mechanical Engineering
- Industrial Engineering & Management
- Journal of Powder Metallurgy & Mining

About Destination Moscow

This city is very popular with foreign guests and the most populous city in Europe. Moscow is the capital of Russia. It is believed that the city is eight and a half centuries old. Moscow is a leading economic and also a centre of the arts. The Russian Federation is a country that stretches over a vast expanse of Europe and Asia.

Moscow is famous for its harsh winters that sometimes last until April. Summers are hot but not unbearable. Fall begins early, so the best times to travel to Moscow are from May until September and October. Moscow's metro system is fast and efficient. It is possible to travel all over the city inexpensively and easily using the metro. Moscow is a fully modern city with skyscrapers, a network of public transportation.
