Meetings International WITH US

7th International Conference on

Material Science and Engineering

September 23-24, 2022 | Osaka, Japan

https://www.meetingsint.com/conferences/materialscience

Invitation

Dear Attendees,

Meetings International proudly announces the 7th International Conference on Material Science and Engineering scheduled during September 23-24, 2022 in Osaka, Japan. The conference emphasizes the theme "MATERIALS SCIENCE AND ENGINEERING AS A MULTIDISCIPLINE".

The MATERIALSCIENCE 2022 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. It will give an overall stage to look at about the present and future troubles in Materials Science and brings the key opinion leaders and thought leaders in the field from around the world for two intensive days of scientific presentations, networking as well as engagement with companies developing innovations in tools and technologies in this space. The purpose of MATERIALSCIENCE is to provide an international technical forum to showcase recent advances in MATERIALSCIENCE, Nano technology, and Material physics and material chemistry conference operation committee is providing a platform for all the budding young researchers, young investigators to

showcase their research and innovation

Sincerely,

Operating Committee

MATERIALSCIENCE-2022

MATERIALSCIENCE-2022

Conference Highlights

- Computational materials science
- Nano technology in material science
- Smart biomaterials
- Metallurgy, Corrosion and Mining
- Hybrid polymer-based materials
- Piezoelectric materials
- Emerging Smart Materials
- Energy materials
- Material physics and material chemistry
- Graphene and 2D Materials
- Ceramics and composite materials
- Applications in material science and engineering

Osaka Attractions

Explore Osaka

Osaka is Japan's second-largest metropolitan area after Tokyo. It has been the economic powerhouse of the Kansai Region for many centuries. Osaka was previously known as Naniwa. Before the Nara Period, whilst the capital was moved with the reign of each new emperor, Naniwa was once Japan's capital town, the first one ever known. In the 16th century, Toyotomi Hideyoshi chose Osaka as the place for his castle, and the city may have emerged as Japan's political capital if Tokugawa Ieyasu had now no longer terminated the Toyotomi lineage after Hideyoshi's death and moved his government to remote Edo (Tokyo). Osaka is a large port city and commercial center on the Japanese island of Honshu. It's recognized for its modern architecture, nightlife, and hearty street food. The 16th-century shogunate Osaka Castle, which has undergone several restorations, is its major ancient landmark. It's surrounded by a moat and park with plum, peach, and cherry blossom trees. Sumiyoshi-Taisha is among Japan's oldest Shinto shrines.

Venue
Osaka, Japan

Important Dates

Early Bird: ***April 15th,2022***

Abstract Submission Deadline: ***September 15th, 2022***
