Invitation

Dear Attendees

Meetings International proudly announces the *Materials Engineering Conference* scheduled during *November 10-11, 2021 in Las Vegas, USA*

The conference emphasizes the theme "*Advancing the research & innovation on Materials Engineering and Nanotechnology.*"

Materials Engineering 2021 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. This conference brings together the innovations in Sensors and brings the key opinion leaders and thought leaders in the field from around the world for two intensive days of scientific presentations, networking as well as engagement with companies developing innovations in tools and technologies in this space. The purpose of Materials Engineering 2021 is to provide an international technical forum to showcase recent advances in Materials Engineering conference operation committee is providing a platform for all the budding young researchers, young investigators to showcase their research and innovation.

Sincerely,

Operating Committee

Materials Engineering 2021

Conference Highlights

- Materials Engineering and Technology
- Advanced Materials Devices
- Advanced Biomaterials and bio devices
- Graphene and 2D Materials
- Emerging Smart Materials
- Polymer Science & Engineering
- Biosensors and Bioelectronic Materials
- Materials for Green Technology
- Nanotechnology
- Sustainable Energy and Development
- 3D printing materials
- Advanced Ceramics & Composite Materials

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

Las Vegas Attractions

Explore Las Vegas

Las Vegas, city, seat (1909) of Clark county, southeastern Nevada, U.S. The only major city in the American West to have been founded in the 20th century, Las Vegas grew from a tiny, desert-bound railroad service Centre at the outset of the 20th century to the country's fastest-growing metropolis at century's end. This transformation—made possible by a combination of shrewd entrepreneurship, access to water, an extensive transportation network, and permissive state laws—has created the city now often known simply as "Vegas," a place of vast casinos, elaborate hotels, and spectacular entertainment venues that attracts masses of visitors from throughout the world.
