3RD INTERNATIONAL CONFERENCE ON

MECHATRONICS, AUTOMATION AND SYSTEMS ENGINEERING

SEPTEMBER 17-18, 2020 | OSAKA, JAPAN

Mechatronics
2020

Invitation

Mechatronics 2020

Dear Attendees,

3rd International Conference On Mechatronics, Automation and Systems Engineering is a prestigious event organized with a motivation to provide an excellent international platform for the academicians, researchers, engineers, industrial participants and budding students around the world to express their research findings with the global experts. **Mechatronics 2020** will be held in **Osaka, Japan** on **September 17-18, 2020**. It likewise gives a chief interdisciplinary stage to specialists, professionals and instructors to introduce and talk about the latest developments, patterns, and worries just as commonsense difficulties experienced and arrangements received in the fields of Mechatronics, Automation and Systems Engineering . This Conference is sorted out by Meetings International. The meeting would offer countless welcomed addresses from prestigious speakers everywhere throughout the nation. The Best paper grants will be given for the papers made a decision to make the noteworthy commitment to the meeting.

Sincerely,

Operating Committee

Mechatronics 2020

Conference Highlights

- Mechatronics
- System Engineering
- Microcontroller
- The Relevant Technology Applications of Mechatronics
- IOT (Internet Of Things)
- Robotics: New Approaches in Automation
- Autonomous Technology
- Machine Vision System
- Sensing And Control Systems
- Bio Mechatronics
- Opt Mechatronics
- Electrical Engineering
- Mechanical Engineering

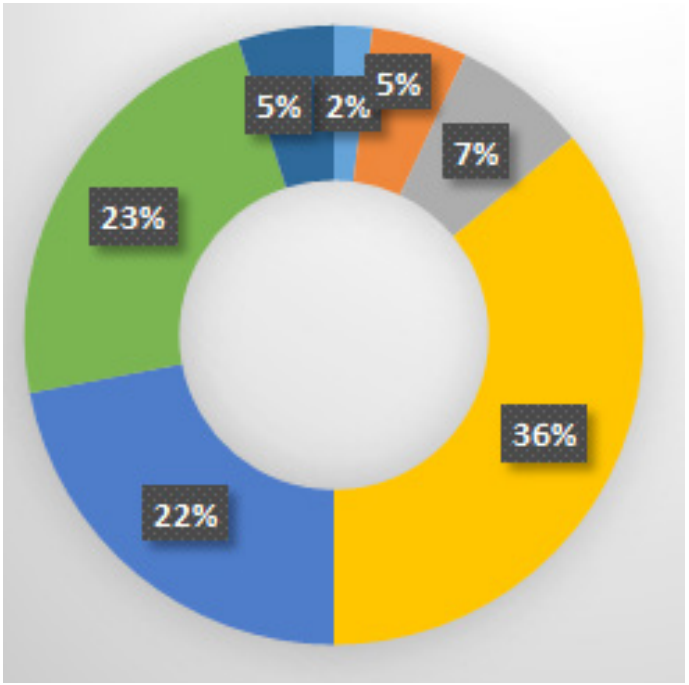

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore Osaka

Osaka is a designated city in the Kansai region of Japan. It is the capital city of Osaka Prefecture and the largest component of the Keihanshin Metropolitan Area, the second largest metropolitan area in Japan and among the largest in the world with more than 20 million inhabitants. Osaka was traditionally considered Japan's economic hub. By the Kofun period (300–538) it had developed into an important regional port, and in the 7th and 8th centuries it served briefly as the imperial capital. Osaka continued to flourish during the Edo period (1603–1867) and became known as a center of Japanese culture. Following the Meiji Restoration, Osaka greatly expanded in size and underwent rapid industrialization. In 1889, Osaka was officially established as a municipality. Today, Osaka is a major financial center of Japan. It is home to the Osaka Securities Exchange as well as the multinational electronics corporations Panasonic and Sharp.
