Dear Colleagues,

Meetings International proudly announces the upcoming meeting International Conference on Medical Imaging and Clinical Research scheduled on June 17-19, 2018, Venice, Italy. With a theme of "Medical Imaging for Improved Diagnosis and Treatment".

Meetings International provides a Global Platform for Medical Imaging Professionals, Medical Imaging Practitioners, Medical and Healthcare Professionals to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences.

Medical imaging is involved in both diagnosis and therapy. Using a computer, existing 2D images can be transformed into interactive 3D volumes and results from different modalities can be merged. Furthermore, it is possible to calculate functional areas that were not visible in the primary images. This paper presents examples of clinical applications that are integrated into clinical routine and are based on medical imaging fundamentals. not make insulin. With type2 diabetes, the more typical sort, our body does not make or utilize insulin well.

Conference Highlights :

- Importance of Medical Imaging
- Therapeutic Imaging
- Ultrasound Imaging
- Magnetic Resonance Imaging
- Pediatric X-ray Imaging
- Radiography
- Tactile Imaging
- Computed Tomography (CT)
- Optical Imaging
- Near Infrared Imaging
- Positron-Emission Tomography
- Medical Imaging in Pharmaceutical Clinical Trail
- Medical Imaging

Organizing Committee Members

Dr. Zang-Hee Cho
Seoul National University, Korea

Vikas Leelavati Balasaheb Jadhav
Consultant Radiologist, Dr.D.Y.Patil University, Pune, Maharashtra, India

About Venice

Venue:

Venice, Italy

Venice is composed of more than a hundred tiny islets, packed closely together around canals. The city is in a lagoon, protected from the sea by a long strip of land called the Lido. Venice is a glorious cliché, more romantic, more beautiful and more surprising than you could expect.
