Invitation

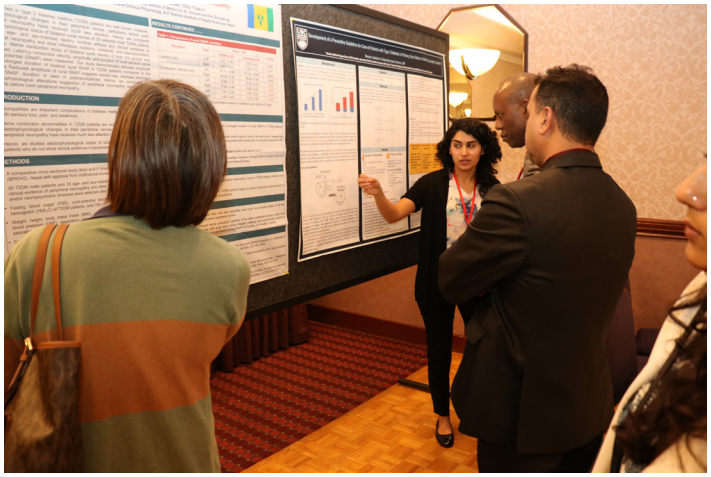

MEDICAL IMAGING 2018

Meetings International proudly announces the ***International Conference on Medical Imaging And Clinical Research*** scheduled during ***November 28-29*** in ***Tokyo, Japan***. The conference emphasizes the theme "***Medical Imaging for Improved Diagnosis and Treatment***".

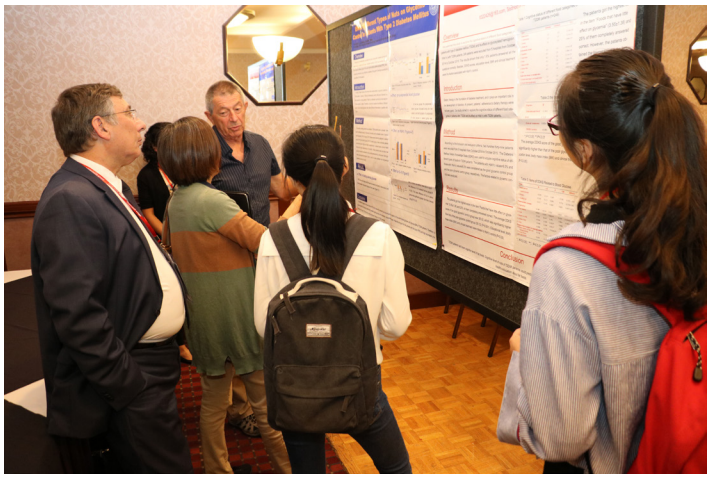

Meetings International provides an international dais for scientists and material science experts to exchange ideas, knowledge and networking at its **100+ International Conferences**. Medicinal Imaging is the strategy and procedure of making visual portrayals of the inside of a body for clinical investigation and therapeutic mediation, and in addition visual portrayal of the capacity of a few organs or tissues. Medicinal imaging tries to uncover interior structures covered up by the skin and bones, and in addition to analyze and treat ailment. 2018 is focussed on the all the latest advances on medical imaging dedicated to clinical research and in all areas of diagnostic and therapeutic medical imaging relevant to clinical practice and the radiological sciences.

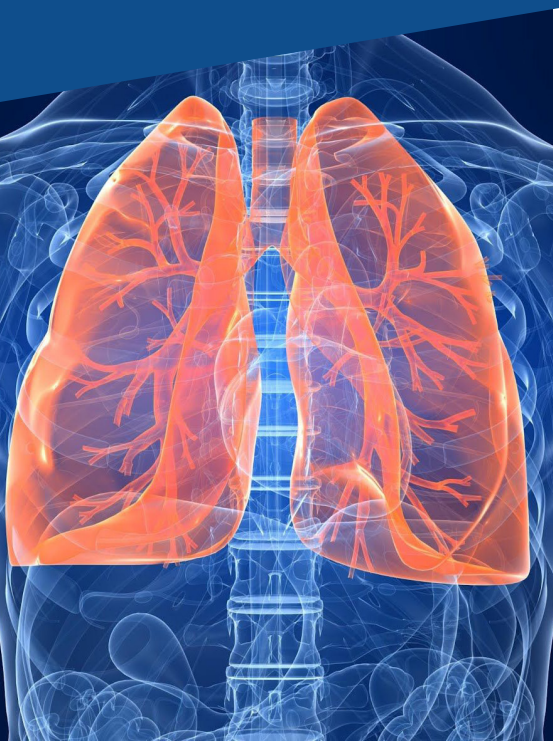

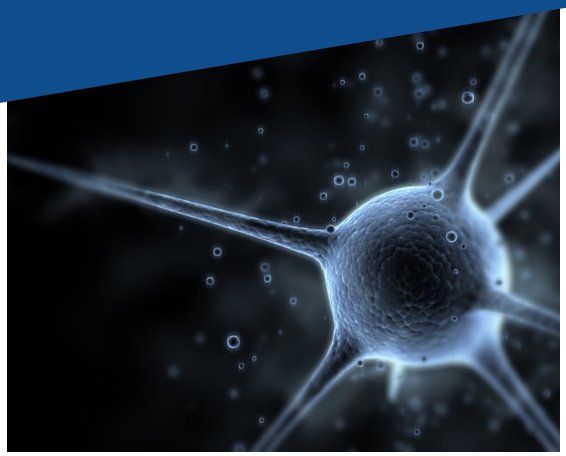

Conference Highlights

- Importance of Medical Imaging
- Therapeutic Imaging
- Ultrasound Imaging
- Magnetic Resonance Imaging
- Pediatric X-ray Imaging
- Radiography
- Tactile Imaging
- Computed Tomography (CT)
- Optical Imaging
- Near Infrared Imaging
- Positron-Emission Tomography
- Medical Imaging in Pharmaceutical Clinical Trail
- Medical Imaging
- Clinical Research

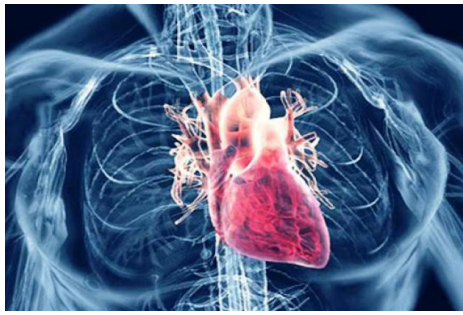

Meetings Int. offers

An unique platform for top level research and innovation

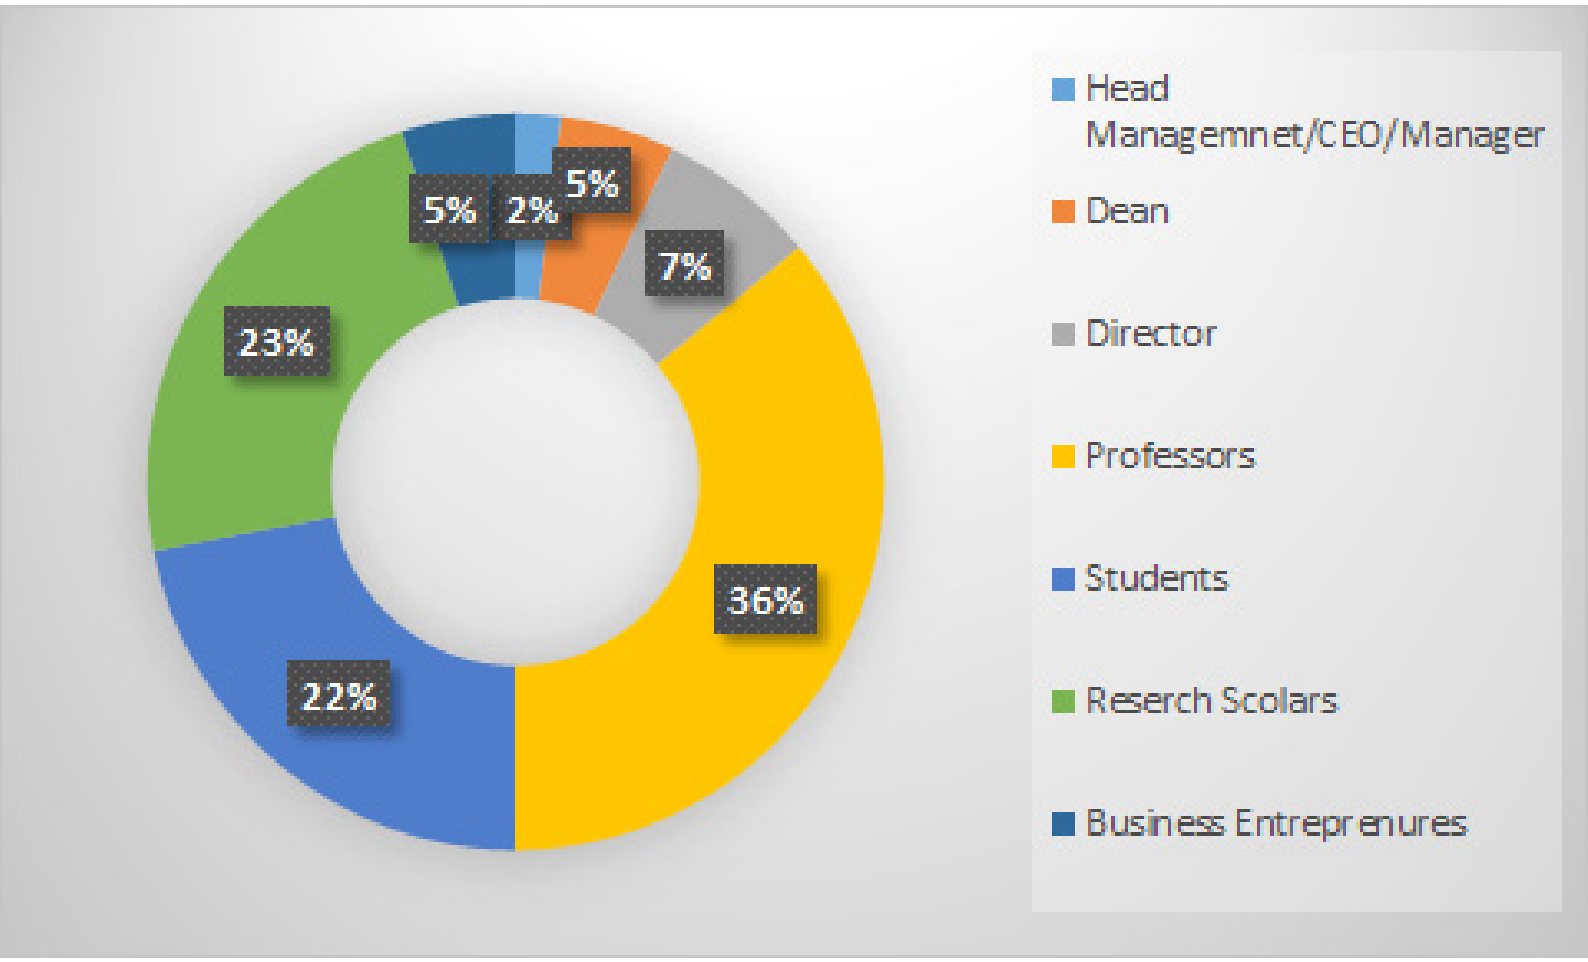

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Tokyo**

Tokyo is the capital city of Japan, and the greatest city in Japan in terms of population and region. Tokyo is a vast metropolis, and it would take more than a lifetime to properly get to know it.Tokyo is found generally within the center of the Japanese archipelago confronting the Pacific Sea.
