International Conference on

Medicinal Chemistry

May 20-21, 2022 |London, UK

https://www.meetingsint.com/conferences/medicinalchemistry

Invitation

Dear Attendees,

Medicinal Chemistry 2022 invites all the participants across the globe to attend "International Conference on Medical Chemistry" during May 20-21, 2022 in London, UK. Which includes prompt keynote presentations, oral presentations, poster presentations, and exhibitions This Conference will concentrate on the theme "Latest Research & Recent Technologies in the Medicinal Chemistry & Pharmaceutical Chemistry". It is intended to investigation of solutions and pharmaceutical medicines. It will likewise give the fantastic chance to meet specialists, trade data, and reinforce the coordinated effort among Directors, Researchers, Associate Professors, and Scholars from both scholarly community and industry. Therapeutic science is to recognize the novel dynamic concoction mixes and it gives appropriate SAR and substance qualities related with the dynamic medicament.

Sincerely,

Operating Committee

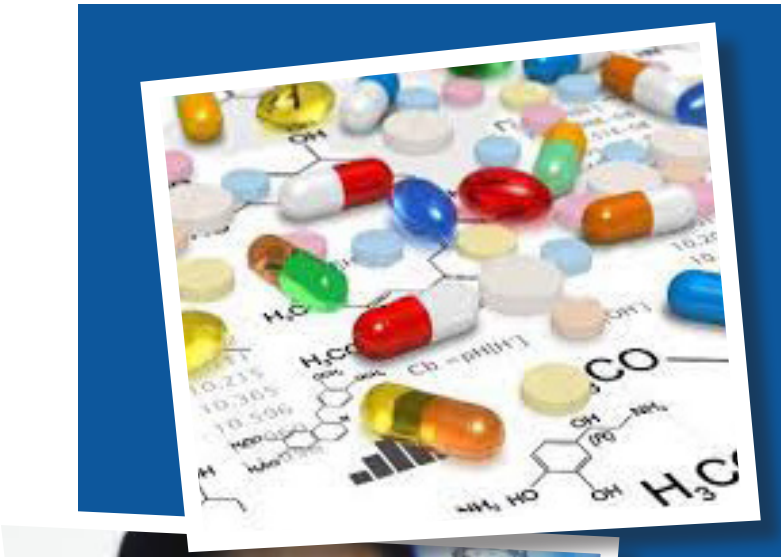

MEDICINAL CHEMISTRY 2022

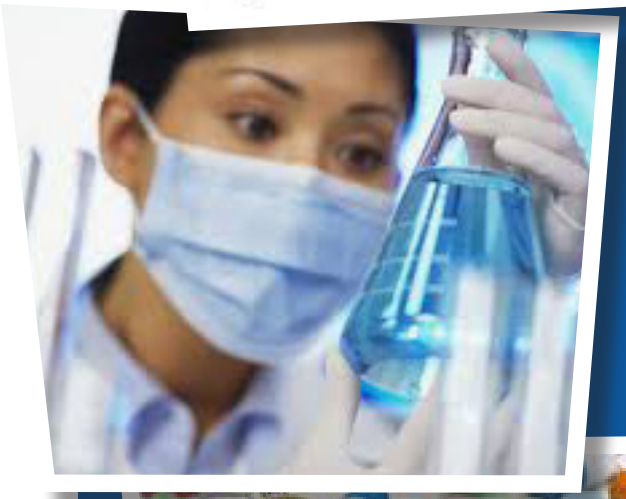

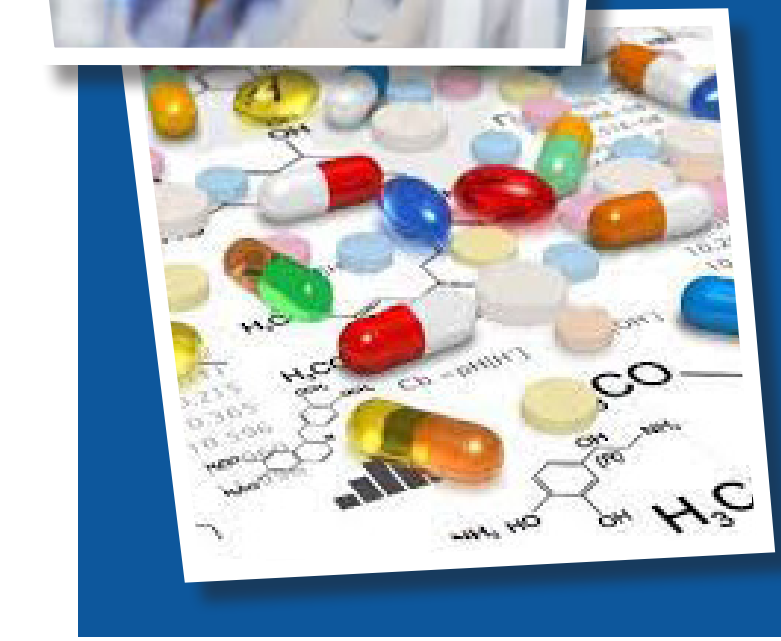

Conference Highlights

- Food Science & Technology
- Food Quality Control and Quality
- Assurance
- Food and Beverage Services
- Nutraceuticals and Functional Foods
- Food, Health & Nutrition
- Food Biotechnology & Bioprocess
- Technology
- Food Engineering & Processing
- Food Packaging & Sustainable Food
- Manufacturing
- Agri Food Technology

London Attractions

Explore London

London is the capital of England and the United Kingdom and one of the largest and most important cities in the world. The area was originally settled by early hunter gatherers around 6,000 B.C., and researchers have found evidence of Bronze Age bridges and Iron Age forts near the River Thames.Ancient Romans founded a port and trading settlement called Londinium in 43 A.D., and a few years later a bridge was constructed across the Thames to facilitate commerce and troop movements. But in 60 A.D., Celtic queen Boudicca led an army to sack the city, which was burned to the ground in the first of many fires to destroy London.The city was soon rebuilt, but burned again about 125 A.D. More rebuilding occurred, and within a few generations the population exceeded 40,000 people. After the fall of the Roman Empire in 476 A.D., however, the city was attacked numerous times by Vikings and other raiders, and soon London was largely abandoned.The city's fortunes began to change in 1065, when Westminster Abbey was established. One year later, after his victory at the Battle of Hastings, William the Conqueror was crowned King of England. During his reign, the Tower of London was built, and in 1176 a wooden London Bridge that had repeatedly burned was replaced by a bridge of stone.As the power of the Tudor and the Stuart dynasties grew, London expanded in size and importance. By the time Henry VIII was king, the population of London was at least 100,000.

Venue
London, UK

Important Dates

Early Bird: ***December 31, 2021***
On Spot Registration: ***February 26, 2022***
Abstract Submission Deadline: ***May 20, 2022***
