14th Edition of International conferece on

Microbiology Research and Public Health

March 24-25, 2022 | Singapore City

Theme: Advancements in Microbiology and Virology for better and healthier life

Invitation

We are glad to announce the 14th Edition of International conference on Microbiology Re-search and Public Health to be held in Singapore, Singapore city from March 24-25, 2022 organized by EuroSciCon ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Microbiology, Medicinal Microbiology, Clinical Microbiology, infectious-diseases, Immune System, Analysis of Infectious Diseases Industrial Immunology, Diagnostics Of Immunology and Infection, Immunology Of Infectious Diseases, Remedy For Immunity And Infection and Study Of Evolution. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is about learning every day. Make it count in your professional life. Attend Microbiology 2022 Conference Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Singapore, Singapore city - March 24-24, 2022

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

With over 25000+ Practitioners and Educators accessing the website, Clinical Microbiology 2022 is the most lucrative platform for Microbiology Industrialists, Microbiology Industrialists, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Clinical Microbiology 2022 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

Leading World Microbiology Industrialists, Microbiology Industrialists Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Euro Microbiology 2021 conference conference brings together individuals who have an interest in different fields of plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Molecular Biologists, Immunologists, Microbiologists, and Delegates from Medical Laboratories and Drug Designing Companies, Directors/Co-Directors of Research based companies across Europe and US who are investing in Immunology and Infectious Diseases and others who stay plunged in learning and practice of the science of technology. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Organisms In Nosocomial Infections
- Pharmaceutical Microbiology
- Medicinal Microbiology
- Food Microbiology
- Scientific Microbiology
- Microbial Identification and Contamination
- Medication disclosure, improvement & atomic science
- Microbial Ecology & Next Gen Sequencing
- Clinical Microbiology
- Microorganisms in Pharmaceutical Industry
- infectious-diseases
- Pathology And Dermatology
- Microbial Physiology And Genomics
- Human Virology And Infectious Diseases
- Health Care - Infectious Diseases
- Antimicrobial/Antibiotics/Antibacterial
- Infection And Immune System
- Diagnosis And Treatment Of Infectious Diseases
- Microbial Vaccines And Advancements
- Neurological And Blood Infectious Diseases
- Virology And Viral Diseases

2022

About Destination Singapore City

Singapore is a sunny, tropical island in Southeast Asia, off the southern tip of the Malay Peninsula. Singapore is a city, a nation and a state. It is about 275 square miles, smaller than the State of Rhode Island, and inhabited by five million people from four major communities; Chinese (majority), Malay, Indian and Eurasian. Since its independence in 9 August 1965, the country has adopted a parliamentary democracy system. Currently, the government and the cabinet are led by Prime Minister, Lee Hsien Loong while President Halimah Yacob is the Head of State.

Singapore is known as a City in a Garden and nearly 50 percent of the island is green space. It is a thriving metropolis offering a world-class infrastructure, a fully integrated island-wide transport-network, dynamic business environment, vibrant living spaces and a rich culture largely influenced by the four major communities in Singapore with each offering different perspective of life in Singapore in terms of culture, religion, food, language and history.

One of the reasons that Singapore proves to be such an attraction as a home is the ease of living, particularly in terms of residence, transportation and governance system. Over the years, Singapore has made significant strides in many areas and has attracted an encouraging number of international accolades which recognize the city as vibrant and world-class.
