Tentative Program

14th International Conference on

Microbiology Research and Public Health

March 24-25, 2022 | Singapore

Theme: Advancements in Microbiology and Virology for better and healthier life

For available speaker slots

Contact at: infectiousdiseases@speakermeeting.com

19+ Interactive Sessions	15+ Keynote Lecture	75+ Plenary Lecture	5+ Workshop

Conference Secretariat

14th International Conference on

Microbiology Research and Public Health

March 24-25, 2022 | Singapore

Day-01 March 24, 2022	
Time	Session
08:30-09:30	Registrations
09:30-11:00	Keynote Forum
11:00-11:20	Group Photo & Network & Refreshments Break*
11.20-13.00	Microbiology | Virological diseases | Infectious Diseases
13:00-13:45	Lunch Break**
13:45-16:00	Advances In Microbiology | Medical Microbiology | Role Of Microbes In Public Health
16:00-16:15	Network & Refreshments Break*
16:15-17:00	Clinical Virology And Infectious Diseases | Pathology

Day Concludes

Day-02 March 25, 2022	
Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
11:00-11:20	Group Photo & Network & Refreshments Break*
11:20-13:00	General Virology | Viral Vaccines | Viral Immunology
13:00-13:45	Lunch Break**
13:45-16:00	Environmental Microbiology | Clinical Microbiology | Applications Of Microbes
16:00-16:15	Network & Refreshments Break*
16:15-17:00	Microbiology & Molecular Biology | Food Microbiology | Infection & Immunity
17:00-18:00	Poster Presentations

Day Concludes

Award Ceremony

Conference Concludes

Glimpses of Microbiology 2022

Major Scientific Sessions

- Insect Virus And Fungal Virology
- Clinical And Molecular Microbiology
- Pediatric Infectious Diseases
- Neurovirology
- Viral Oncology
- Bacterial Virology
- Epidemiology Of Virus
- Current Focus In Virology Research
- Microbiology
- Pathology And Dermatology
- Pathology And Dermatology
- Microbial Physiology And Genomics
- Human Virology And Infectious Diseases
- Health Care - Infectious Diseases
- Antimicrobial/Antibiotics/Antibacterial
- Infection And Immune System
- Diagnosis And Treatment Of Infectious Diseases
- Microbial Vaccines And Advancements
- Neurological And Blood Infectious Diseases
- Virology And Viral Diseases

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

About Singapore

Modern Singapore was founded in 1819 by Sir Stamford Raffles as a trading post of the British Empire. In 1867, the colonies in Southeast Asia were reorganised and Singapore came under the direct control of Britain as part of the Straits Settlements. During the Second World War, Singapore was occupied by Japan in 1942, and returned to British control as a separate crown colony following Japan's surrender in 1945. Singapore gained self-governance in 1959 and in 1963 became part of the new federation of Malaysia, alongside Malaya, North Borneo, and Sarawak. Ideological differences led to Singapore being expelled from the federation two years later and it became an independent country.After early years of turbulence and despite lacking natural resources and a hinterland, the nation rapidly developed to become one of the Four Asian Tigers based on external trade, becoming a highly developed country; it is ranked ninth on the UN Human Development Index and has the second-highest GDP per capita (PPP) in the world. Singapore is the only country in Asia with a AAA sovereign rating from all major rating agencies. It is a major financial and shipping hub, consistently ranked the most expensive city to live in since 2013, and has been identified as a tax haven. Singapore is placed highly in key social indicators: education, healthcare, quality of life, personal safety, and housing, with a home-ownership rate of 91%. Singaporeans enjoy one of the world's longest life expectancies, fastest Internet connection speeds and one of the lowest infant mortality rates in the world.
