International Microfluidics Webinar

April 15, 2020

Webinar on Microfluidics (April 15, 2020)	
Talk 1 (09:30-09:50)	**Title:** Inkjet microfluidic technology for printing and life science applications
	Alexander N. Govyadinov, HP Inc, USA
Talk 2 (09:50-10:10)	**Title:** Microplastic detection using impedance measurements in a microfluidic channel
	Vienna Mott, Draper, USA
Talk 3 (10:10-10:30)	**Title:** Artificial intelligent point-of-care tools for rapid diagnostics of trauma
	Deniz Vurmaz, NYU Tandon School of Engineering, USA
Talk 4 (10:30-10:50)	**Title:** 3D Printing: A Paradigm shift for Lab-on-Chip and microfluidic devices
	Elliot McAllister, Skyphos Industries Inc., USA
Talk 5 (10:50-11:10)	**Title:** Direct fabrication of flctuated patterns by lithigrapic additive manufacturing
	Soshu Kirihara, Osaka University, USA
