8th International Conference on

Microfluidics

June 24-25, 2022 | New York ,USA

https://www.meetingsint.com/conferences/microfluidics/

Invitation

Dear Attendees

Meetings International proudly announces the ***8th International Conference on Microfluidics*** scheduled during ***June 24-25, 2022 in New York, USA.***

The conference emphasizes the theme "***Microfluidics research trends and techniques***".

The Microfluidics 2022 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. This conference brings together the innovations in microfluidics and brings the key opinion leaders and thought leaders in the field from around the world for two intensive days of scientific presentations, networking as well as engagement with companies developing innovations in tools and technologies in this space. The purpose of Microfluidics 2022 is to provide an international technical forum to showcase recent advances in microfluidics, Bio-MEMS, and medical microsystems. Microfluidics conference operation committee is providing a platform for all the budding young researchers, young investigators to showcase their research and innovation.

Sincerely,

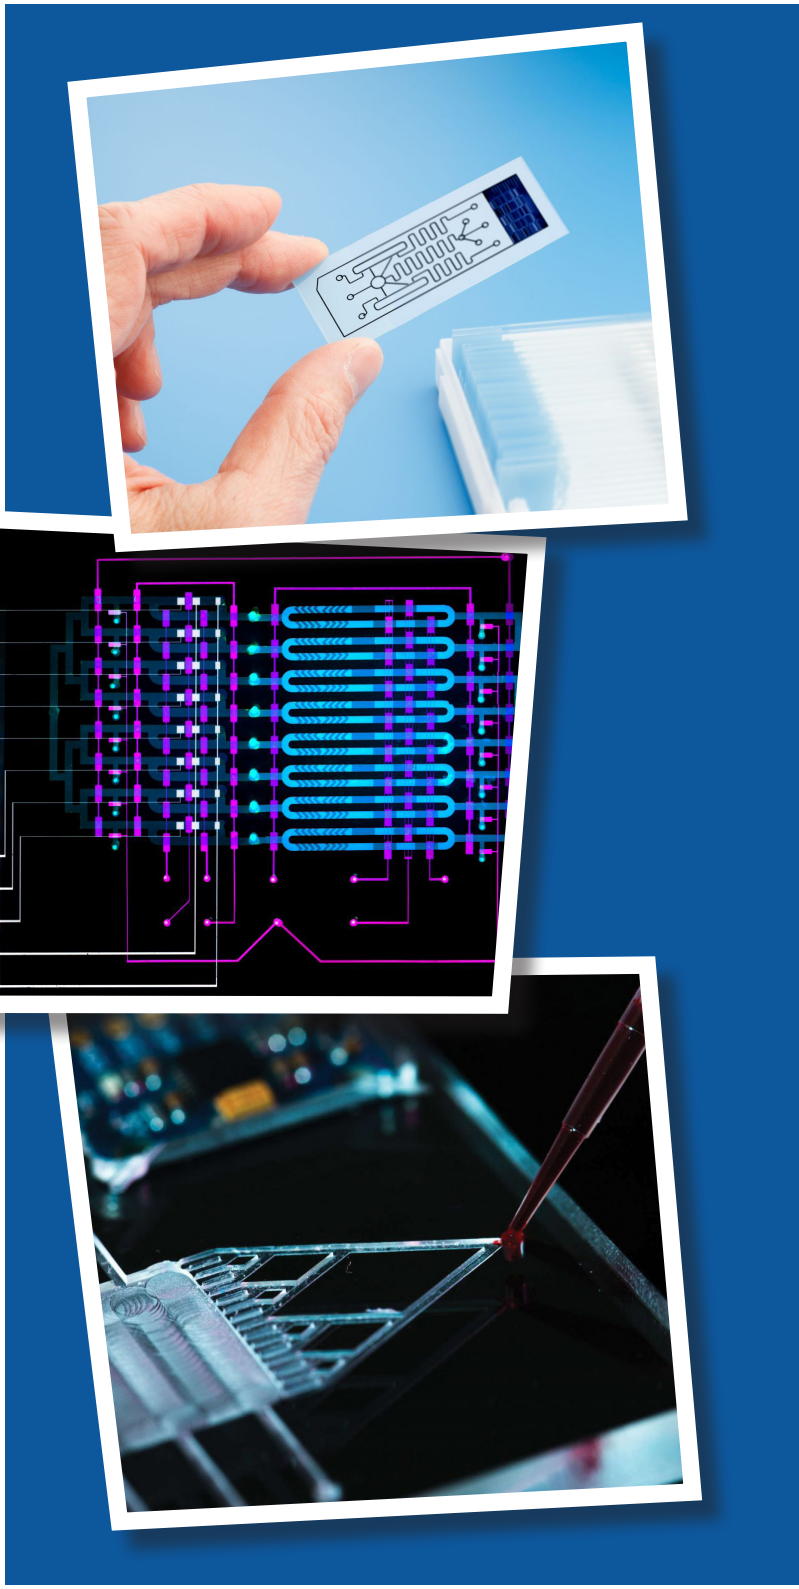

Operating Committee

Microfluidics 2022

Conference Highlights

- Micro/Nanofluidics Research and Advances
- Lab-On-A-Chip Technology
- Organs-on-chips
- Bio-MEMS/NEMS and Chips
- Micro fabrication Technologies
- Electrochemistry and microfluidics
- Acoustic Droplet Ejection
- Bio-sensing Technologies
- Digital microfluidics

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

New York Attractions

Explore New York

One of the greatest cities in the world, New York is always a whirlwind of activity, with famous sites at every turn and never enough time to see them all. Some people come here to enjoy the Broadway shows; others come specifically to shop and dine; and many come simply to see the sites: the Statue of Liberty, Empire State Building, Brooklyn Bridge, Central Park, historic neighbourhoods, and numerous world famous museums.

Many of the best places to visit in New York are within walking distance of each other, or just a short ride away, making this city a delight for sightseeing. Some of the newer tourist attractions that have opened in New York in recent years, like the High Line and One World Observatory, offer unique perspectives of the city. Any time of year and any time of day or night there are an endless array of things to see and do in New York. Although this year the city may not have its usual high-energy vibe, that doesn't mean you shouldn't visit.

Venue
New York, USA.

Important Dates

Early Bird: ***January 22, 2022***

Abstract Submission Deadline: ***January 22, 2022***
