Dear Colleagues

Meetings International extends its welcome to "**8th International Conference on Microfluidics**" scheduled on **June 15-16, 2022 in Vancouver, Canada** with the theme of "**DRIVING THE FUTURE WITH MICROFLUIDICS & BIOMEMS**".

Microfluidics will be a platform for plenary speakers, Keynote speakers, Invited speakers and Young Researchers as well as for the youth generation. The summit will work as a discussion point for researchers and experts from all around the world to discuss the cause, effect, prevention as well asthe future roadmap of a cancer free society.

Conference Highlights :

- Micro/Nanofluidics Research and Advances
- Lab-On-A-Chip Technology
- Organs-on-chips
- Bio-MEMS/NEMS and Chips
- Micro fabrication Technologies
- Electrochemistry and microfluidics
- Acoustic Droplet Ejection
- Bio-sensing Technologies
- Digital microfluidics

About Vancouver

Vancouver is one of the most dramatically situated cities in the world. Surrounded by the Coastal Mountain range, including the ski-resorts of Grouse and Cypress, Vancouver is the destination of choice for ski junkies, mountain bikers and all outdoor enthusiasts.

It's no coincidence that the car registration plates in this province all say "Beautiful British Columbia."

It's got mountains, beaches, trendy little neighbourhoods, and it's only a 2-hour drive from Whistler – one of the world's top ski resorts….what's not to like?!

There is surfing too, but you need to go to the west coast of Vancouver Island for that.

Known also as Gastown, after one of its early neighbourhoods, Vancouver is definitely more laid back than Toronto.

Don't be expecting high fashion here as people are more likely to dress in gym gear than Gucci.

The city and its people are really welcoming.
