About conference

Tissue Engineering 2020 welcomes every one of the participants, moderators, associations and exhibitors from everywhere throughout the world to Macau, China. We are pleased to welcome all of you to go to the "7th International Conference on Tissue Engineering & Regenerative Medicine" which will be held on December 14-15, 2020 at Macau, China. We welcome you to go along with us at the Tissue Engineering 2020, to impart significant experience to researchers from around the globe. We hope seeing you at Macau, China.

Sessions:

- Future perspectives in Tissue Engineering and Regenerative Medicine
- Stem Cell Engineering (SCE)
- Tissue repair and Rejuvenation
- Skin Tissue Engineering and Wound healing
- Bone and Cartilage Tissue Engineering
- Scaffolds Used In Tissue Engineering

Who should attend?

- Companies dealing in Tissue Engineering & Regenerative medicine
- Venture capitalists and investors interested in this market
- Research organizations

Why to attend?

- To Meet Experts
- Learning In a New Space
- New Tips & Tactics
- Certification
- Global Networking

Benefits of attending Tissue Engineering & Regenerative medicine Conferences:

- Getting recognition some of the most reputed names in the scientific community.
- Hearing about the latest research from the conference topic.
- An opportunity to share your views and interact with researchers from around the world.
- A chance for budding scientists to meet their academic heroes.
- Engaging in high-level debates to refine your ideas.
- Opportunity to get a best young scientist award

Tourist Attractions

Macau was one of the earliest European colonies in Asia and the last to be relinquished (1999) and thus has a more visible colonial history than Hong Kong. Walking through the old city you could convince yourself you were in Europe - if the streets were devoid of people and signs in Chinese, that is. The Portuguese and Macanese populations continue to maintain a presence but, as expected, most of the population is native Chinese.

- The Great Wall of China
- The Forbidden City
- Cruising the Li River
- The Classical Gardens
