Invitation

Dear Attendees

Meetings International proudly announces the ***8th International Conference on Molecular Biology & Biochemistry*** scheduled during ***October 18-19, 2021 in Tokyo, Japan.***

The conference emphasizes the theme "***Examine the Exploration & Impending Movements of Molecular Biology and Biochemistry***".

The Molecular Biology-Biochemistry-2021 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. This conference brings together the innovations in Molecular Biology and Biochemistry and brings the key opinion leaders and thought leaders in the field from around the world for two intensive days of scientific presentations, networking as well as engagement with companies developing innovations in tools and technologies in this space. The purpose of Molecular Biology-Biochemistry-2021 is to provide an international technical forum to showcase recent advances in Molecular Biology and Biochemistry conference operation committee is providing a platform for all the budding young researchers, young investigators to showcase their research and innovation.

Sincerely,

Operating Committee

Molecular Biology-Biochemistry-2021

Conference Highlights

- Next Generation DNA Sequencing
- Molecular Biology
- Techniques of Molecular Biology
- Cellular and Molecular Biology
- Structural and Molecular Biochemistry
- Clinical and Nutritional Biochemistry
- Medicinal and Pharmaceutical Biochemistry
- Protein and Analytical Biochemistry
- Proteomics in Biochemistry and Molecular Biology
- Enzymology & Biochemistry
- Enzymology in Molecular Biology
- Proteomics in Biochemistry and Molecular Biology

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

Explore Tokyo

Tokyo officially Tokyo Metropolis is the capital and most populous prefecture of Japan. Located at the head of Tokyo Bay, the prefecture forms part of the Kanto region on the central Pacific coast of Japan's main island of Honshu. Tokyo is the political and economic center of the country, as well as the seat of the Emperor of Japan and the national government. In 2019, the prefecture had an estimated population of 13,929,280. The Greater Tokyo Area is the most populous metropolitan area in the world, with more than 37.393 million residents as of 2020. Originally a fishing village named Edo, the city became a prominent political center in 1603, when it became the seat of the Tokugawa shogunate. By the mid-18th century, Edo was one of the most populous cities in the world, with a population numbering more than one million.
