

EuroSciCon

13th Edition of international conference on

Nanomedicine and Advanced Drug Delivery

August 29-30,2019
London, UK

Theme:

Nano-pharmaceutics and Drug Delivery: Challenges and Breakthroughs

EuroSciCon

Nano Drug Delivery Euroscicon

2019

Invitation

Welcome to London, the city of arts and science, and experience the art of Nano Drug Delivery illuminated as never before. EuroSciCon is proud to host the Nano Drug Delivery Euroscicon 2019, August 29-30,2019 in London, UK. Theme of the conference focuses on The challenges and Break throughs in Nano Pharmaceutics and Drug Delivery. Nano drug delivery is considered as, a blend of both Nano Technology and practicality which conveys a purpose of Drug delivery. The most publicized use of nanotechnology in drug delivery under development is the use of nanoparticles to deliver drugs to cancer cells. Particles are engineered so that they are attracted to diseased cells, which allows direct treatment of those cells. This technique reduces damage to healthy cells in the body.However, that's just the tip of the drug delivery iceberg.There are a number of other ways that nanotechnology can make the delivery of drugs more efficient and potentially less unpleasant for the patient. Some techniques are only imagined, while others are at various stages of testing, or actually being used today. The Nano Drug Delivery Euroscicon 2019 introduces many of these techniques..

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

August 29-30,2019
London, UK

Nano Drug Delivery
Euroscicon

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ analytical chemists and drug analysts accessing the website, Nano Drug Delivery Euroscicon 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fuelling better outreach of the work and profile.

Nano Drug Delivery Euroscicon 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

August 29-30,2019
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Nano Drug Delivery Euroscicon

2019

Who'd be attending?

Nano Drug Delivery Euroscicon 2019, August 29-30,2019in London, UK. Theme of the conference focuses on The Challenges and Breakthroughs in Nano-pharmaceutics and Drug Delivery. Nano Drug Delivery Euroscicon 2019 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. The primary goal of "Nano Drug Delivery Euroscicon 2019" is to bring in researchers, scholars, engineers, practitioners, scientists, and students from all around the world along with leading industry people to attend and/or present research activities which will lead to encourage positive relation between Academics and Industry. The conference will provide the delegates to exchange ideas and knowledge face to face and establish research and/or business relations, with a collective goal to create a better future." Nano Drug Delivery Euroscicon 2019" will be promoting research and new ideas relating Design of Nano drugs, new and advanced Drug Delivery Systems and Drug Delivery Equipments And Machinery. This conference will have the participation of renowned keynote speakers in these areas, along with oral presentations and posters. sessions.

Tracks :

- Cancer And Nanotechnology
- Nanomedicine
- Design Of Nanodrugs
- Drug Targeting And Design
- Novel Drug Delivery Systems
- Routes Of Drug Administration
- Pharmaceutical Nanotechnology
- Nanomaterials For Drug Delivery
- Nanotechnology And Biomedical Applications
- Personalized Nanomedicine
- Drug Delivery Research
- Drug Delivery Equipments And Machinery
- Smart Drug Delivery Technology
- Regenerative Medicine And Tissue Engineering
- Regulatory Aspects Towards Approval Of Nanomedicine
- Vaccine Design And Delivery Technology
- Drug Delivery And Device Development
- Recent Advances In Drug Delivery
- Major Challenges In Drug Delivery
- Drug Delivery Companies And Markets
- Nano Pharmaceutical Industry and Market

EuroSciCon

Academic Keytopics:

- Biomedical Engineering
- Business Opportunities in Drug Delivery
- Drug Delivery Technology
- Nano Pharmaceuticals
- Nanomedicine and Nanotechnology
- Novel Bio therapeutics and Drug Delivery Systems
- Nucleic Acid Based Drug Delivery
- Peptide and Protein Drug Delivery
- Smart Drug Delivery Systems
- Synthesis of Nanoparticles for Drug Delivery

Business Keytopics:

- Drug Delivery Market in Africa
- Drug Delivery Market in Brazil
- Drug Delivery Market in Canada
- Nano Drug Delivery Market in Australia
- Nano Drug Delivery Market in Germany
- Nanomedicine Market in Asia
- Nanomedicine Market in Dubai
- Nanopharmaceutics Market in UK

About Destination London

London is the capital and most populous city of England and the United Kingdom. Standing on the River Thames in the south east of the island of Great Britain, London has been a major settlement for two millennia. It was founded by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km^2) medieval boundaries. Since at least the 19th century, "London" has also referred to the metropolis around this core, historically split between Middlesex, Essex, Surrey, Kent and Hertfordshire, which today largely makes up Greater London,a region governed by the Mayor of London and the London Assembly. London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is the world's largest financial centre and has the fifth or sixth largest metropolitan area GDP in the world. London is often regarded as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport systemmeasured by passenger traffic. It is the world's leading investment destination, hosting more international retailers and ultra high-net-worth individuals than any other city. London's universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to have hosted the modern Summer Olympic Games three times.London contains four World Heritage Sites: the Tower of London; Kew Gardens; the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church; and the historic settlement of Greenwich (in which the Royal Observatory, Greenwichdefines the Prime Meridian, 0° longitude, and GMT). Other landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library and West End theatres. The London Underground is the oldest underground railway network in the world.
