

EuroSciCon

19th Edition of International conference on

Emerging Trends in Materials Science and Nanotechnology

February 24-25, 2020
Philadelphia, USA

Theme:

Advancing the Research Trends on Materials Science and Nanotechnology

Invitation

Welcome to Philadelphia, the city with classical Architecture, and experience the novel technologies of materials science and nanotechnology as never before. EuroSciCon is proud to host the 19th Edition of International conference on Emerging Trends in Materials science and Nanotechnology, February 24-25, 2020 in Philadelphia, USA. This year's theme is The Triumphs of Hi-tech New Wave are the Ensemble of Materials Science and Nanotech. Nanomat 2020 will provide an unprecedented opportunity Professors of all stripes. Nanomat 2020 will provide an unprecedented opportunity for nanotechnologists and materials scientist of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Material scientists, nanotechnologists, materials scientist, research professors and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Nanomat conference is the perfect venue not only to dive into your particular materials science and nanotechnological interests but also to expand the scope of your knowledge. 17 tracks are devoted to subjects such as the Advanced Nanomaterials, nanotechnology for clean energy and Environment , Nano biotechnology, Nano Biomedicine, Carbon and graphene nanostructures, Polymer Science Engineering, advanced Materials Science, Nano Composites, Nano technology in materials science, Electronic, Optical & Magnetic Materials, Emerging technology in Materials science and Nanotechnology. .

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant materials science and nanotechnological forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

February 24-25, 2020
Philadelphia, USA

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Materials scientists and nanotechnologists accessing the website, Nanomat 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Nanomat 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

February 24-25, 2020
Philadelphia, USA

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Nanomat

2020

Who'd be attending?

19th Edition of International conference on Emerging Trends in Materials science and Nanotechnology plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Scientists/Research Professors/ Nanotechnologists, Physicists/Chemists, Junior/Senior research fellows of Materials Science/ Nanotechnology/ Polymer Science, Materials Science Students, Directors of chemical companies, Materials Engineers, Members of different Materials science associations, Members of different nanotechnology associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Advanced Nanomaterials
- Nano Electronics
- Nanotechnology for Clean Energy and Environment
- Nano Applications
- Nano Biotechnology
- Nano Biomedicine
- Carbon and Graphene Nanostructures
- Polymer Science Engineering
- Biopolymers and Bioplactics
- Advanced Materials Science
- Nano Composites
- Nano technology in materials science
- Corrosion Engineering and corrosion protection
- Biomaterials
- Electronic, Optical & Magnetic Materials
- Nanophotonics
- Nano Robotics

2020

About Destination Philadelphia

Philadelphia, known colloquially as Philly, is the largest city in the U.S. state and Commonwealth of Pennsylvania, and the sixth-most populous U.S. city, with a 2018 census-estimated population of 1,584,138. Since 1854, the city has been coterminous with Philadelphia County, the most populous county in Pennsylvania and the urban core of the eighth-largest U.S. metropolitan statistical area, with over 6 million residents as of 2017. Philadelphia is also the economic and cultural anchor of the greater Delaware Valley, located along the lower Delaware and Schuylkill Rivers, within the Northeast megalopolis. The Delaware Valley's population of 7.2 million ranks it as the eighth-largest combined statistical area in the United States.

Tourish attaractions like the beautiful Benjamin Franklyn Bridge from Delaware into Pennsylvania whereupon we will arrive in the City of Philadelphia, birthplace of the United States of America.

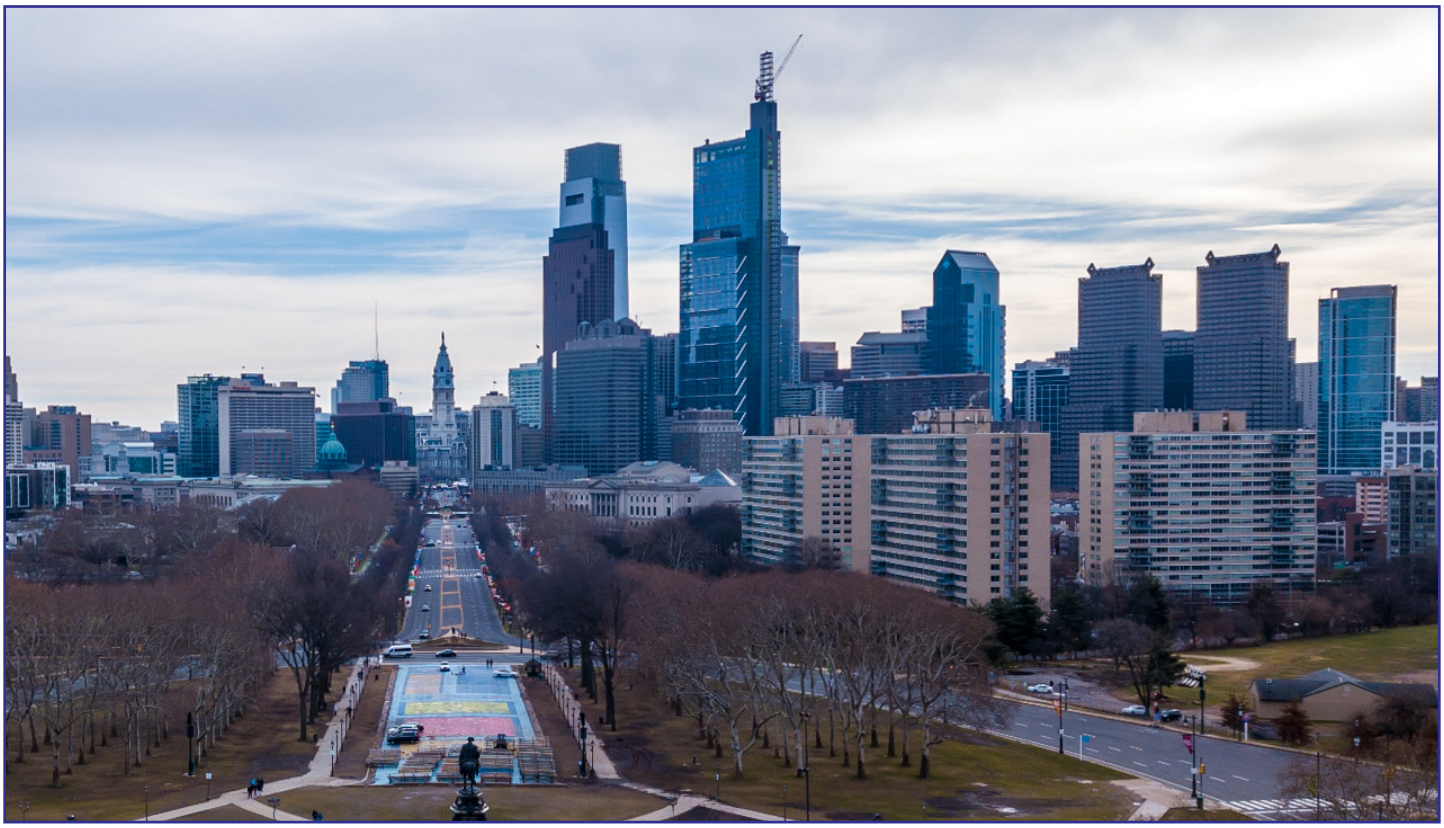

We will see the Liberty Bell and view Liberty Hall along with the original site of the Old Congress. We will then visit the Yoni Netanyahu Monument before continuing on to the famous "Rocky-Steps," located on the beautiful Benjamin Franklin Boulevard.
