15TH WORLD CONGRESS IN

NANOPHOTONICS AND ELECTRONICS

FEBRUARY 17-18, 2020 | PHUKET, THAILAND

Nanophotonics 2020

Invitation

Dear Attendees,

Meetings International proudly announces the 15th World Congress in Nanophotonics and Electronics scheduled during February 17-18, 2020 in Phuket, Thailand. The conference emphasizes the theme "Techniques for learning the new technologies in the field of Nanophotonics ".

Conference is devoted to giving optics specialized gathering in detailing and find out about the most recent innovative work, new applications and advances. It incorporate interesting topics introductions from everywhere throughout the world and expert systems administration with businesses, driving working gatherings and boards. The meeting will be organized to bring together nanotechnology practitioners, optics specialists, lasers and optoelectronics professionals in one platform. Nanophotonics 2020 conference is a chance to meet others within specialty to organize and to take in the most recent nanophotonics data. Nanophotonics researchers follow a really big variety of goals, in fields starting from photonics to technology, Optoelectronics and electronics etc. The term nanophotonics has been employed in numerous sorts of method like, power physics , optical device doping , optical device ablation , optical systems, optical device engravers medicine industries, optoelectronics. devices, bio-nanophotonics.

Sincerely,

Operating Committee

Nanophotonics 2020

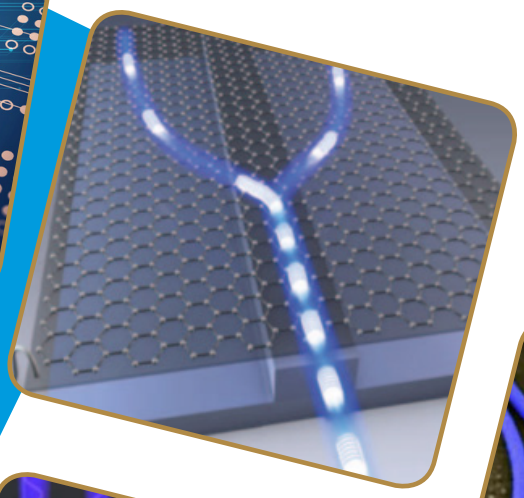

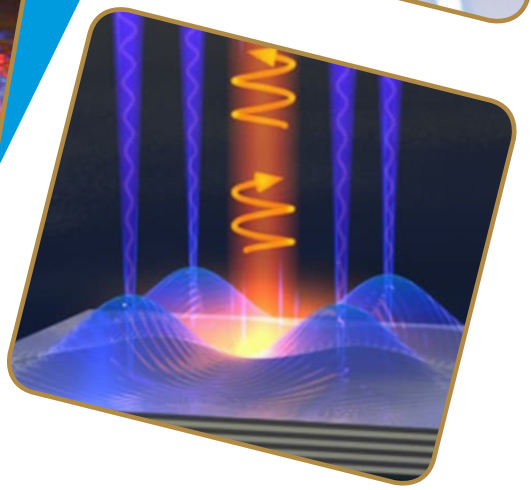

Conference Highlights

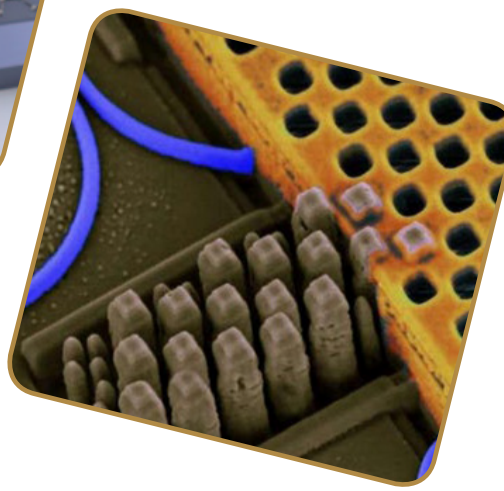

- Nanophotonics and Bio Photonics
- Organic Photonics
- Photonic Integrated Circuits
- Microwave Photonics
- Optoelectronics
- Optical Physics
- Optics and Lasers in Medicine
- Technologies in Lasers, Optics and Photonics
- Optical Communications and Networking
- Laser Systems

To identify the future directions of research

Peer review and high quality publication

Quality research

Head Management/CEO/Manager

Dean

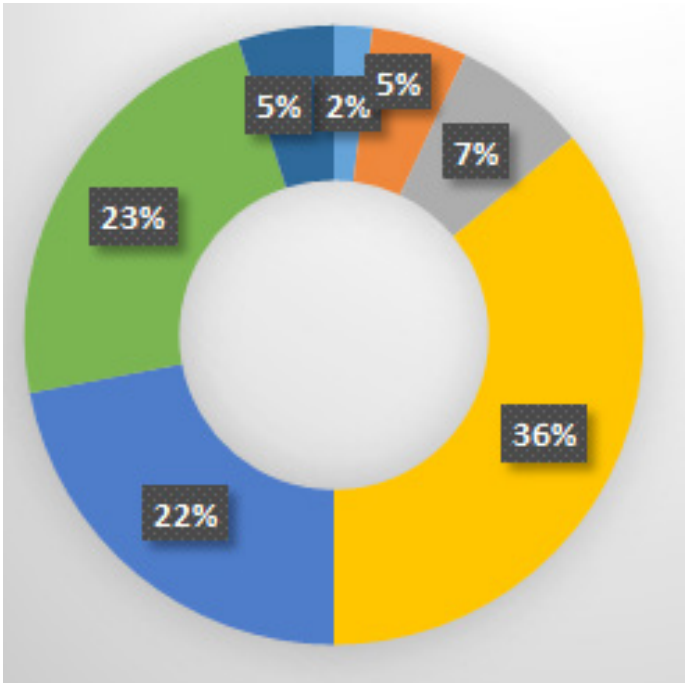

Director

Professor

Students

Research Scolars

Business Enterprenures

Explore Thailand

Phuket City is a city in the south-east of Phuket Island, Thailand. It is the capital of Phuket Province. As of 2007 the city had a population of around 76,000. It covers the subdistricts Talat and Talat Nuea of Mueang Phuket district. Phuket is one of the oldest cities in Thailand. It was an important port on the west of the Malay Peninsula where Chinese immigrants first landed. The old buildings in Phuket town indicate its former prosperity. They were constructed when tin mining was an important on the island. The architectural style, called “Sino-Portuguese”, is European mixed with Chinese modern. Characteristic is a single or two-storey building with a narrow front compensated for by considerable depth.
