International Conference on

Nanosensors and Electronic Instruments

February 17-18, 2020 | Phuket, Thailand

Nanosensors 2020

Invitation

Dear Attendees,

Meetings International proudly announces the International Conference on Nanosensors and Electronic Instruments scheduled during February 17-18, 2020 in Phuket, Thailand. The conference emphasizes the theme "Innovative Researches in Sensing Technology using NanoTechnology".

The trends of miniaturized products are driving the market growth, miniaturized semiconductors and sensor has fuelled the nanomaterial applications for sensor manufacturing giving rise to nanosensors. The global market for Nanosensors can be segmented based on type into optical, electromagnetic and electrochemical. The major application segments of nanosensors are in the field of Automotive and Aerospace, Homeland Defence and Military, Biomedical and Healthcare, etc. Constant R&D on nanotechnology can bring the market advantage of innovative companies. Thus this International Conference on Nanosensors and Electronic Instruments will be focusing on all aspects for improving humans' environment and health.

Sincerely,

Operating Committee

Nanosensors 2020

Conference Highlights

- Nanosensors and Mechanic
- Nanoscale Electronics
- Nanosensors in Chemical Applications
- Nanosensors and Food-Agriculture Industry
- Medical Applications of Nano-Biosensors
- Bioelectronics and Biomaterials
- Nanoelectronics for space exploration
- Biological Signals & Nanosensors
- Environment Monitoring with Nanosensors
- Nanosensors for Military advancements

To identify the future directions of research

Peer review and high quality publication

Quality research

Head Management/CEO/Manager

Dean

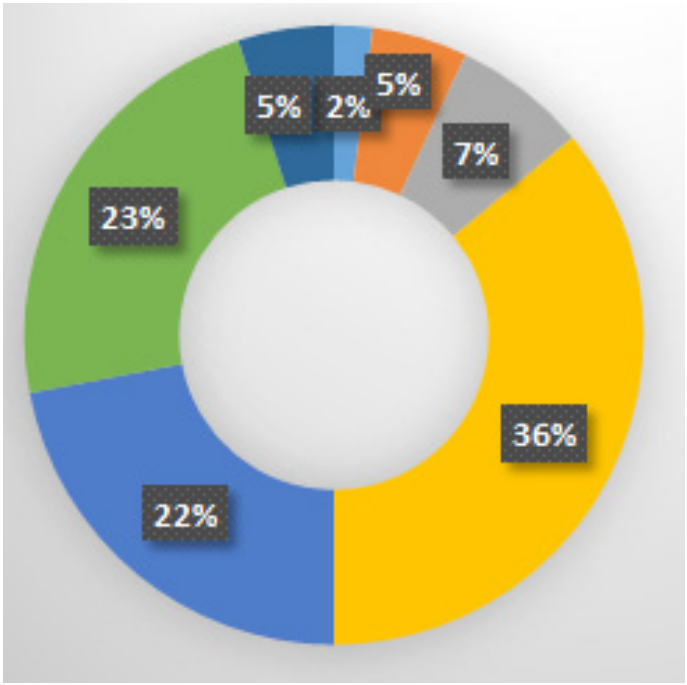

Director

Professor

Students

Research Scolars

Business Enterprenures

Explore Thailand

Phuket City is a city in the south-east of Phuket Island, Thailand. It is the capital of Phuket Province. As of 2007 the city had a population of around 76,000. It covers the subdistricts Talat and Talat Nuea of Mueang Phuket district. Phuket is one of the oldest cities in Thailand. It was an important port on the west of the Malay Peninsula where Chinese immigrants first landed. The old buildings in Phuket town indicate its former prosperity. They were constructed when tin mining was an important on the island. The architectural style, called “Sino-Portuguese”, is European mixed with Chinese modern. Characteristic is a single or two-storey building with a narrow front compensated for by considerable depth.
