13TH INTERNATIONAL CONFERENCE ON

NANOTECHNOLOGY

Nanotech 2019

December 04-05, 2019 | Dubai, UAE

INVITATION

Nanotech 2019

Meetings International proudly announces the **13th International Conference on Nanotechnology** scheduled during **December 04-05, 2019** at **Dubai, UAE.** The conference emphasizes the theme "**Emerging trends & research in nanotechnology**".

Meetings International provides an international dais for scientists and Nanotechnology professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of Nanotechnology has come into spotlight in the recent years. The main objective of circulates on current topics in Nanotechnology which will foster the increased understanding of the nanoscience and technology, material science, nanobiotechnology, nanomedicines, nanotech in cancer treatment, percutaneous and invasive techniques, and outcomes.

Sincerely,
Operating Committee
Nanotech 2019

Important Dates

Early Bird: July 30, 2019

Abstract Submission: July 25, 2019

On Spot Registration: December 04, 2019

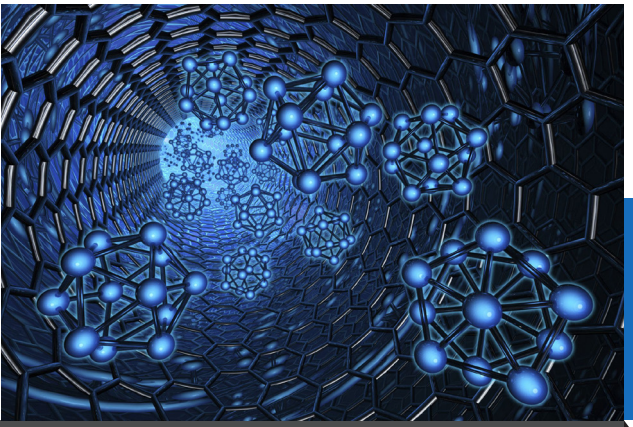

Dubai, UAE

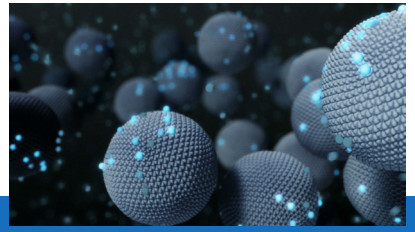

https://www.meetingsint.com/conferences/nanotech

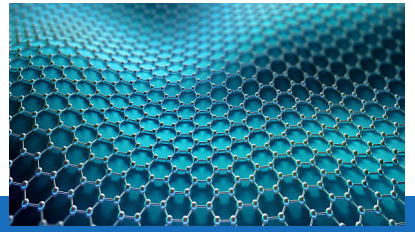

CONFERENCE HIGHLIGHTS

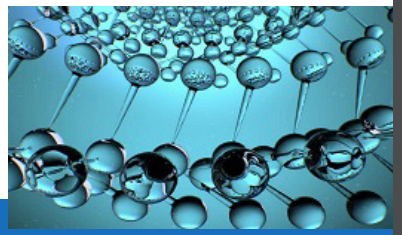

- Nano science and Technology
- Nano Materials Synthesis and Characterisation
- Materials Science and Engineering Physics
- Pharmaceutical Nanotechnology
- Nano- Biotechnology
- Nano- Medicines
- Nanotechnology in Cancer Treatment
- Environmental Nanotechnology
- Nanotechnology in Food Industry
- Nanotechnology in Cosmetics
- Nanotechnology in Electronics

Meetings Int. offers

An unique platform for top level research and innovation

Dubai, UAE

ABOUT DUBAI

Although Dubai is seen as a relatively young destination, it has an entrancing history and a dynamic legacy that offers guests a fascinating look into Arabian culture. A decent place to begin investigating the history and legacy of Dubai is the Dubai Museum. The words 'first, tallest, most profound, most costly, luxurious, extraordinary' could have been made for this city. What other place would you locates a seven-star inn, visit a progression of 200 man-made islands in the state of the nations of the world, or climb the world's tallest building? Dubai is an unrestrained city, which pushes the points of confinement on its design and its social preoccupations. The Burj Khalifa, at a stature of 828 meters (2,716 feet), is as of now the tallest working on the planet. The Dubai World Cup is the most extravagant pony race on the planet. Dubai has even manufactured a ski-slope in a shopping center. Dubai's economy depends on tourism, keeping money, and the advancement of industry-particular zones for various monetary actions, for example, social insurance administrations, media, budgetary administrations, innovation, etc.
