NANOTECHNOLOGY 2018

INTERNATIONAL CONFERENCE ON

NANO TECHNOLOGY AND NANO ENGINEERING

July 16-18, 2018 | Paris, France

http://www.meetingsint.com/conferences/nanotechnology

Invitation

NANOTECHNOLOGY 2018

Meetings International proudly announces the International Conference on Nano Technology and Nano Engineering scheduled during July 16-18, 2018 in Paris, France. The conference emphasizes the theme "Nanotechnology- The World Behind Innovation".

Meetings International provides an international dais for scientists and Nanotechnology professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of Nanotechnology has come into spotlight in the recent years. Nanotechnology may be able to create many new materials and devices with a vast range of applications, such as in nanomedicine, nanoelectronics, biomaterials energy production, and consumer products. Thus, priorities are given for the development of nanotechnology to the benefit of mankind.

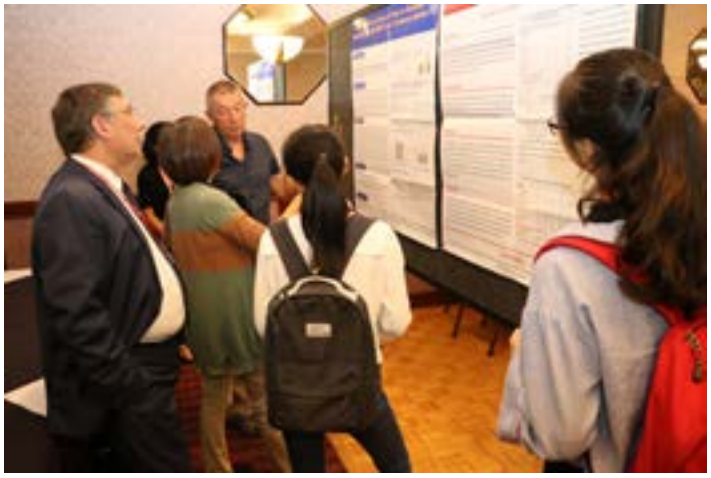

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

Welcome Message!

Welcome to International Conference on Nano Technology and Nano Engineering, which will be held during July 16-18, 2018 at Paris, France. The conference will include Keynote speeches, Plenary Presentation which will be given by Distinguished Scholars and Experts from both academic institutions and industry, and Oral presentation by delegates and poster presentations by young junior participants.

Nanotechnology 2018 will also provide excellent opportunity to meet distinguished scholars and experts and to exchange new ideas, new knowledge and application experiences face to face, to establish research relations and collaborations for future researches and projects.

Nanotechnology 2018 is a multidisciplinary conference and has a wide spectrum from Green Nanotechnology to Nanotoxicity, including Nanoengineering, Nanobiotechnology, Nanoelectronics, Nanomechanics, Nanophotonics, Nano Pharmaceuticals, and others.

International scientific activities, like conference, symposium and workshop are big scientific platforms for knowledge exchange among the scientists from all over the world, and to interact and communicate with each others. We believe that Nanotechnology 2018 will provide this opportunity for delegates from all over the world, from different cultures and countries.

The main purpose of Nanotechnology 2018 -Conference is to set a platform for both senior and junior delegates from universities, laboratories and industries to communicate and share their knowledge, or to teach and learn, to see what the research level of a certain area is, out of one's own country, so as to find potential opportunities for domestic or international cooperation.

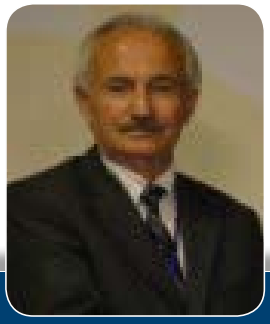

We believe that Nanotechnology 2018 will be performed in a hot and friendly atmosphere full of scientific, cultural and social activities. In particular, this conference will motivate junior and young delegates by interacting with expertise in their scientific fields and by encouraging them and improving their confidence of presenting research in an international platform.

The organizing committee is spending a great effort for an exciting and informative conference program including plenary lectures, symposia, workshops on a variety of topics, poster presentations and various programs for participants from all over the world.

We are pleased to invite prospective authors to submit their original contributions to Nanotechnology 2018 Conference, where you are sure to have a meaningful experience with scholars from around the world.

Prof. Dr. Osman Adiguzel
(Organizing Committee Member)
Directorate of Graduate School of Natural and
Applied Sciences, Firat University, Turkey

Organizing Committee Members

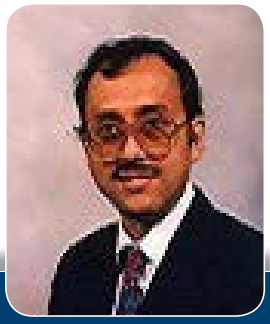

Osman Adiguzel
Professor, Firat University
Turkey

Ajay Kumar Mishra
Professor, University of South Africa, South Africa

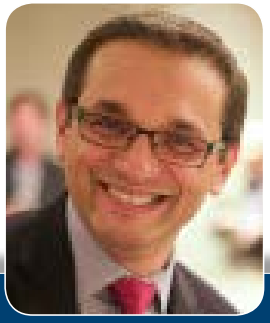

Enge Wang
Professor, Peking University
China

Supriyo Bandyopadhyay,
Professor, Virginia Commonwealth University ,USA

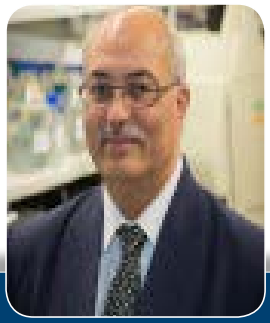

Jiangtao Cheng
Associate Professor, Virginia Tech College of Engineering, USA

Hicham Fenniri
Professor, Northeastern University, USA

TJ Tarn
Senior Professor, Washington University, USA

Jagat R Kanwar
Head & Team leader, Deakin University, Australia

Candido Fabrizio Pirri
Professor, Politecnico di Torino
Italy

T Theivasanthi
Senior Professor, Kalasalingam University, India

Renowned Speakers

Aharon Gedanken
Bar-Ilan University, Israel

Ajay Kumar Mishra
Professor, University of South Africa, South Africa

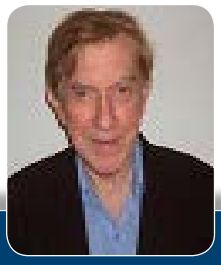

Osman Adiguzel
Professor, Firat University, Turkey

Prof. Jean-Paul Lellouche
Institute of Nanotechnology & Advanced Materials, Bar-Ilan University, Israel

Constantinos Sioutas
USC Viterbi School of Engineering, USA

Thomas Prevenslik
QED Radiations
Germany

Hanan Alqudairy
King Saud University
Saudi Arabia

Shengyong Xu
Peking University Beijing
China

Waldemar Nawrocki
University of Technology
Poznan, Poland

Yong Lei
Technical University of
Ilmenau, Germany

Hanchen Huang
Northeastern University
USA

Nikolaus Stolterfoht
Hahn-Meitner-Institut 2005
Germany

David Carroll
Wake Forest University
USA

Jiangtao Cheng
Dept. of Mechanical
Engineering, USA

Nishimura Shun
Japan Advanced Institute of
Science and Technology, Japan

Media Partners

Collaborator

THE SCIENTIFIC INSTITUTE FOR ADVANCED TRAINING AND STUDIES

Conference Highlights

- Green Nanotechnology
- Nanoengineering
- Graphenes and 2D Materials
- Nanobiotechnology
- Nanoelectronics
- Nanomechanics
- Nanophotonics
- Cancer Nanotechnology
- Nano Pharmaceuticals
- Nanotoxicity
- Recent Innovations

Meetings Int. offers

An unique platform for top level research and innovation

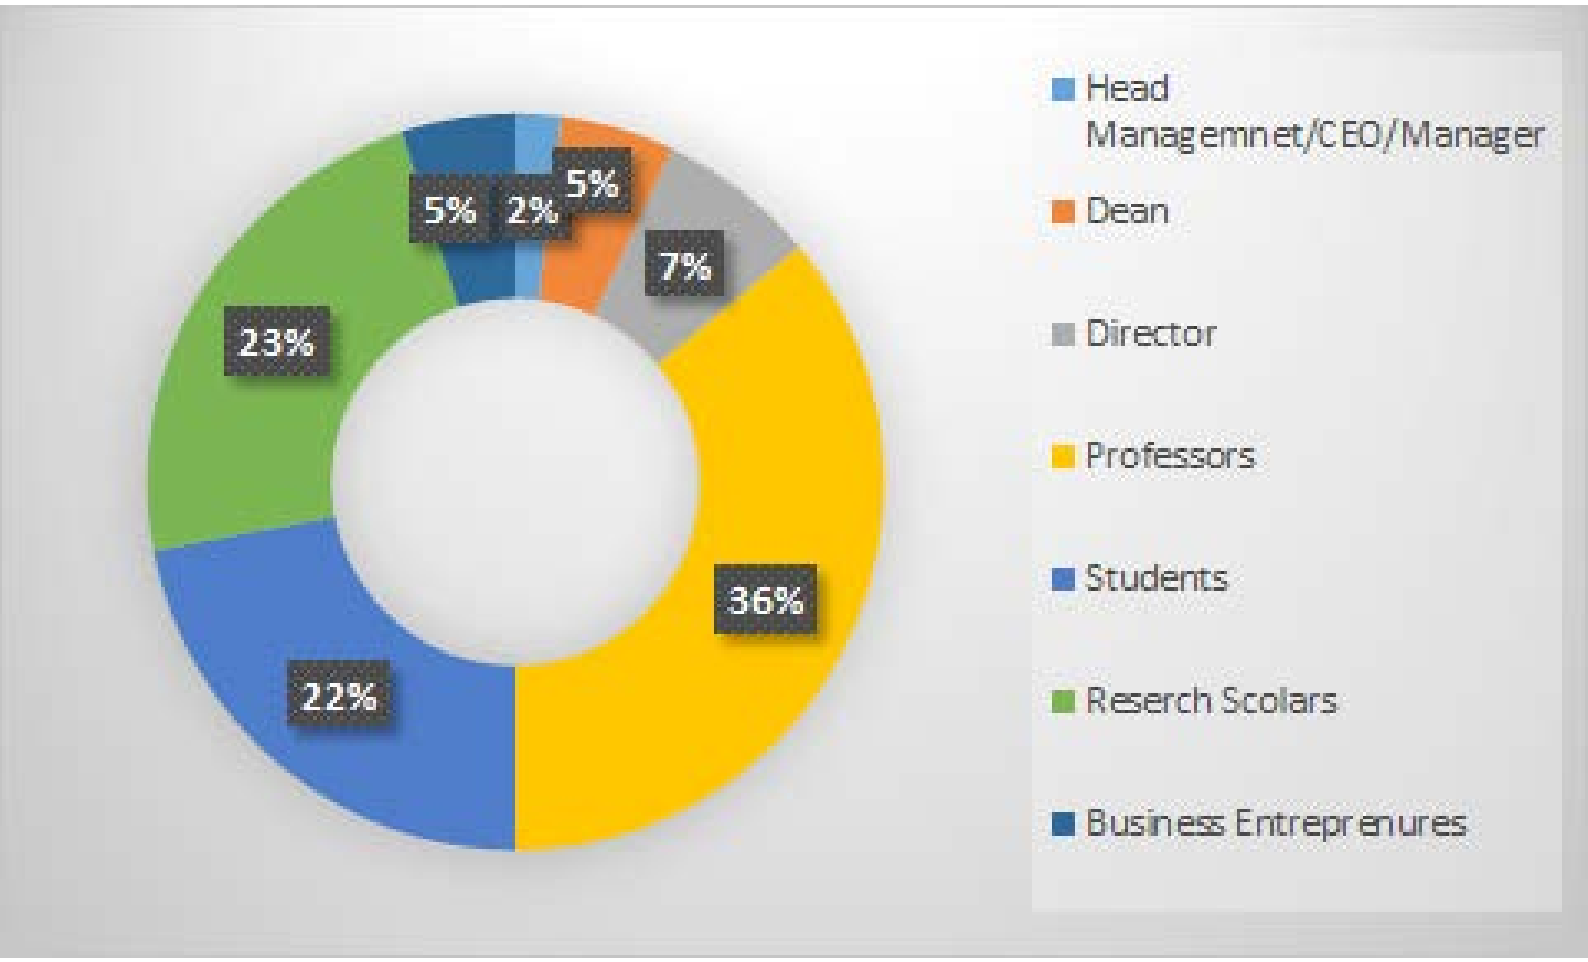

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Paris**

Paris, the cosmopolitan capital of France, is one Europe's largest cities, with 2.2 million people living in the dense, central city and almost 12 million people living in the whole metropolitan area. Located in the north of France on the river Seine, Paris has the well deserved reputation of being the most beautiful and romantic of all cities, brimming with historic associations and remaining vastly influential in the realms of culture, art, fashion, food and design. Dubbed the City of Light (la Ville Lumière) and Capital of Fashion, it is home to the world's finest and most luxurious fashion designers and cosmetics, such as Chanel, Dior, Yves Saint-Laurent, Guerlain, Lancôme, L'Oréal, Clarins, etc. A large part of the city, including the River Seine, is a UNESCO World Heritage Site.
