Invitation

Nanotechnology 2020

Dear Attendees,

Meetings International proudly announces the 11th International Conference on Nanotechnology and Nano Engineering scheduled during June 22-23, 2020 in Venice, Italy. The conference emphasizes the theme "The rising era of nanotechnology & nanoengineering".

Nanotechnology 2020 provides an International dais for Scientists and Health care and Medical professionals to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences. Nanotechnology Meeting plans to provide a platform for all the researchers to share their cup of knowledge & research findings to support the need to discover and learn the importance of nanotechnology and nano engineering in modern days. Nanotechnology and Nano Engineering conference aims to assemble all the researchers who are involved in diverse disciplines of Nano technology & Nano materials, Nanofabrication and functional Nano materials, Material science and technology, Bio nanotechnology, Advanced materials & material chemistry, Electronic, optical, and magnetic materials and more

Sincerely,

Operating Committee

Nanotechnology 2020

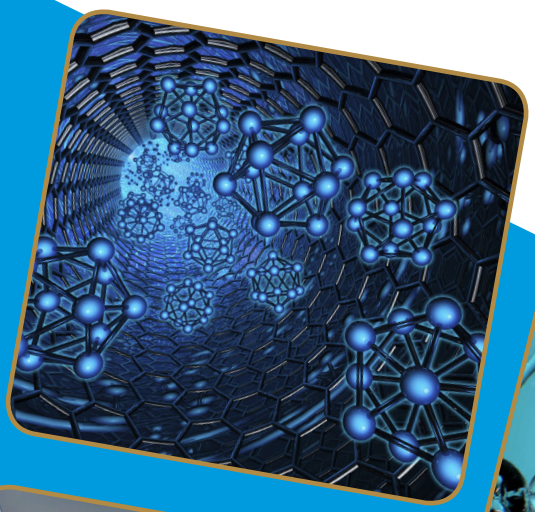

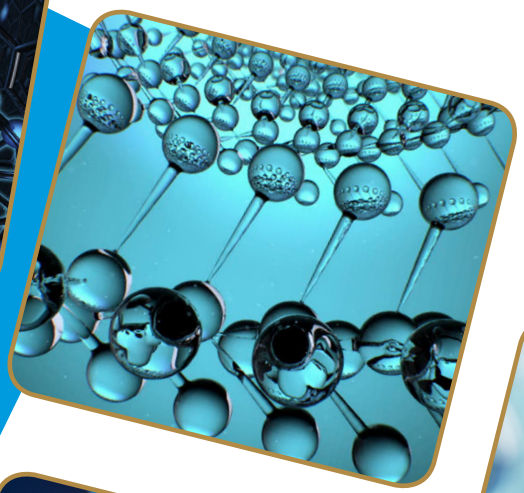

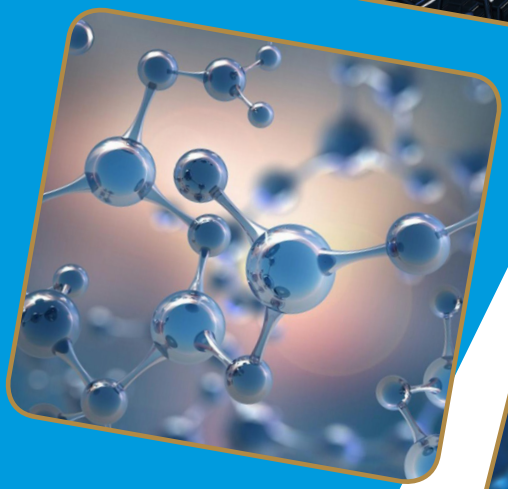

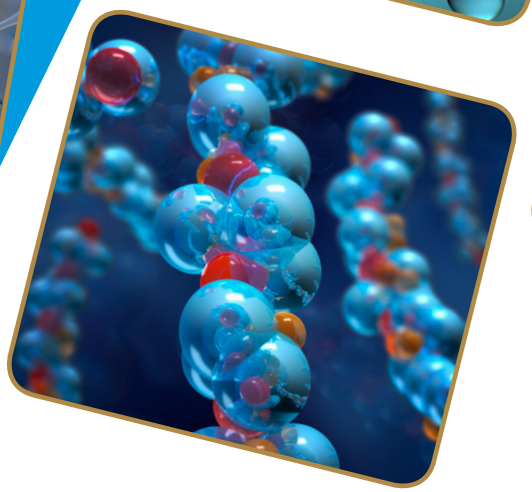

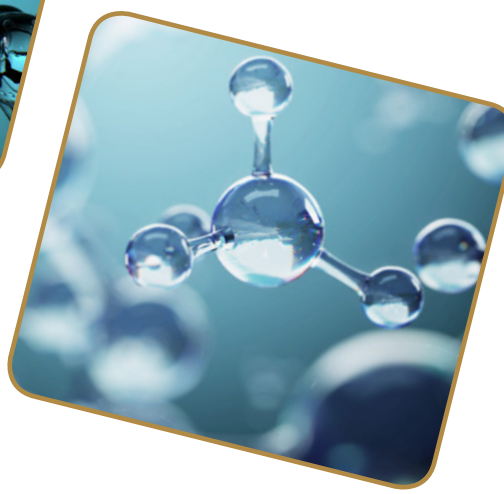

Conference Highlights

Nanotechnology 2020

- Nano technology & Nano materials
- Nanofabrication and functional Nano materials
- Material science and technology
- Bio nanotechnology
- Advanced materials & material chemistry
- Electronic, optical, and magnetic materials
- Scanning probe techniques
- Carbon nanotubes, nanowires and Nano sensors
- Nanotechnology in cancer
- Nano medicines

Explore Venice

Venice is a city in north-eastern Italy and the capital of the Veneto region. It is situated on a group of 118 small islands that are separated by canals and linked by over 400 bridges. The islands are located in the shallow Venetian Lagoon, an enclosed bay that lies between the mouths of the Po and the Piave rivers (more exactly between the Brenta and the Sile). In 2018, 260,897 people resided in the Comune di Venezia, of whom around 55,000 live in the historical city of Venice. Together with Padua and Treviso, the city is included in the Padua-Treviso-Venice Metropolitan Area (PATREVE), which is considered a statistical metropolitan area, with a total population of 2.6 million. The name is derived from the ancient Veneti people who inhabited the region by the 10th century BC. The city was historically the capital of the Republic of Venice for a millennium and more, from 697 to 1797.
