

EuroSciCon

24th Edition of International conference on

Neonatology and Perinatology

April 20-21, 2020
Berlin, Germany

Theme:
Current Trends in Neonatal Research

EuroSciCon

Neonatology

2020

Invitation

EuroSciCon is proud to host the 24th Edition of International conference on Neonatology and Perinatology, April 20-21, 2020, Berlin, Germany. This year's **Theme is Current Trends in Neonatal Research**. Neonatology 2020 features outstanding and internationally renowned neonatologists, perinatology experts, paediatricians, academicians and researchers. The representations include premier medical universities, hospitals and healthcare/pharma industries from all around the globe.

The topics covered at the conference would range a spectrum of Neonatology, Perinatology and Pediatrics. Attendees of the conference would be delighted to witness various interactive workshops, keynote lectures, speaker talks, and poster presentations and most significantly the exhibitions held by the top healthcare and pharma industries. The conference also has Young Research Forum, where the budding researchers are encouraged to give oral presentations.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why to associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 19 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ technologists accessing the website, Neonatology 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Neonatology 2020 Salient Features:

The conference gives you one of the finest opportunities to engage with the eminent doctors and researchers from the area of Neonatology, Perinatology and Pediatrics. Most prominent speakers, advanced technologies and discoveries in the field of neonatology; are the highlights of this two day conference.

April 20-21, 2020
Berlin, Germany

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Neonatology

2020

Who'd be attending?

Neonatology 2020 plays a host for internationally renowned neonatologists, perinatology experts, paediatricians, academicians, researchers and business professionals. The representations include premier medical universities, hospitals, research centers and healthcare/pharma industries from all around the globe.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Neonatology
- Perinatology
- Neonatal Research
- Neonatal Neurology
- Neonatal Surgery
- Cardiovascular Problems In Neonates
- Neonatal Respiratory Disorders
- Gastrointestinal Problems In Neonates
- Neonatal Skin Related Disorders
- Neonatal Blood Disorders
- Neonatal-Perinatal Medicine
- Neonatal Syndromes
- Neonatal Infections
- Neonatal Genetic Disorders
- Congenital malformations & Birth Complications

About Destination Berlin

Berlin is the capital and largest city of Germany by both area and population. Its inhabitants make it the second most populous city proper of the European Union after London. The city is one of Germany's 16 federal states. It is surrounded by the state of Brandenburg, and contiguous with Potsdam, Brandenburg's capital. The two cities are at the center of the Berlin-Brandenburg capital region, which is, with about six million inhabitants and an area of more than 30,000 km², Germany's third-largest metropolitan region after the Rhine-Ruhr and Rhine-Main regions.

Berlin straddles the banks of the River Spree, which flows into the River Havel (a tributary of the River Elbe) in the western borough of Spandau. Among the city's main topographical features are the many lakes in the western and southeastern boroughs formed by the Spree, Havel, and Dahme rivers (the largest of which is Lake Müggelsee). Due to its location in the European Plain, Berlin is influenced by a temperate seasonal climate. About one-third of the city's area is composed of forests, parks, gardens, rivers, canals and lakes. The city lies in the Central German dialect area, the Berlin dialect being a variant of the Lusatian-New Marchian dialects.

Berlin is a world city of culture, politics, media and science. Its economy is based on high-tech firms and the service sector, encompassing a diverse range of creative industries, research facilities, media corporations and convention venues. Berlin serves as a continental hub for air and rail traffic and has a highly complex public transportation network. The metropolis is a popular tourist destination. Significant industries also include IT, pharmaceuticals, biomedical engineering, clean tech, biotechnology, construction and electronics.
