October 17-18, 2022
Atlanta, USA

7th International Conference on

Neurology and Psychiatry

October 17-18, 2022 | Atlanta, USA

Theme: Insights in Neurology and Psychiatry & Neurosciences : Tiny Neuron to the Nervous System

Invitation

We are glad to announce the 7th International Conference on Neurology and Psychiatry to be held in Atlanta, USA from October 17-18, 2022 organized by International ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Neurological Disorders, Neuro Degeneration, Stroke, Spine & Spinal Disorders
Stroke and its Management, Brain Tumors & Neuro Oncology, Multiple sclerosis
Stroke and Mental Health, Neuropsychology & Behavioral Sciences, Risk Assessment and Prevention of Stroke, Neuro Diagnosis & Imaging techniques, Neurology and Psychiatry and Nursing Neurosurgery, Neurological disorders: Research and Treatments, Therapeutics Approaches for Neurological Disorders, Clinical Trails & Case Reports and Seizure Disorders and Epilepsy

Life is about learning every day. Make it count in your professional life. Attend Neurology-2022 Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Atlanta, USA - October 17-18, 2022.

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at International strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Practitioners and Educators accessing the website, Neurology-2022 is the most lucrative platform for Multinational organizations, entrepreneurs across the globe, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Neurology-2022 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's International different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

7th International Conference on Neurology and Psychiatry Leading World Multinational organizations, entrepreneurs across the globe, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Neurology-2022 conference brings together individuals who have an interest in different fields of Immunology plays host for the The Directors of Neurology and Psychiatry and related Programs or Associations, Heads, Deans, and Professors of Neurology and Psychiatry and related departments, Scientists and Researchers, Doctors, Neurology and Psychiatry Associations and Organizations, Laboratory members and Students working in the field of Neurology and Psychiatry. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

International is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, International is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Stroke
- Neuropathic Pain
- NeuroScience
- Neurotoxin
- Brain
- Alzheimer
- Amnesia
- Brain tumour
- Cognitive Disorders
- Dementia
- Epilepsy
- Headache
- Meningitis
- Metastatis
- Movement disorders
- Nervous system
- Neuroanaatomy
- Neurodegeneration
- Neuromedicines
- Neuropathy
- Neuropeptides
- Neurosciences
- Neurosurgery
- Neurotoxins
- Neurotransmitters
- Parkinson
- Rehabilitation therapy
- Neuron
- Psychosis
- Trauma
- Brain Injury
- Spinal cord injury
- Huntington Disease
- Schizophrenia
- Abstract Submission

About Destination Atlanta

Atlanta is the capital and most populous city of the U.S. state of Georgia. With a population of 498,715 living within the city limits, it is the eighth-most populous city in the Southeast and 38th most populous city in the United States according to the 2020 U.S. census. However, it serves as the cultural and economic heart of the much larger Atlanta metropolitan area, home to 6,144,050 people, making it the eighth-largest metropolitan area in the United States. It is the seat of Fulton County, the most populous county in Georgia. Situated among the foothills of the Appalachian Mountains at an elevation of just over 1,000 ft. above sea level, it features unique topography that includes rolling hills, lush greenery, and the most dense urban tree coverage of any major city in the United States.

Atlanta was originally founded as the terminus of a major state-sponsored railroad, but it soon became the convergence point among several railroads, spurring its rapid growth. One of those railroads included the Western and Atlantic Railroad, from which the name “Atlanta” is derived, signifying the city’s growing reputation as a major hub of transportation. During the American Civil War, it served a strategically important role for the Confederacy until it was captured in 1864.
