SCIENTIFIC PROGRAM

Day 1

June 18, 2018

Registrations

Opening Ceremony

Keynote Forum

Khin Bo, Northern Lincolnshire & Goole NHS Foundation Trust, UK

Allal Boutajangout , Virginia Tech Carilion School of Medicine, USA

Networking & Refreshment Break

Giovanni Antioco Putzu, Quartu Sant Elena, Italy

Krupa Torne, Surya Children's Hospital, India

Session Introduction

Session Chair:

Extremely rare multiple malformations: Pituitary duplication, and split spinal cord

Slobodan Marinkovic, University of Belgrade, Serbia

The neuroprotective role of argan oil against alcohol use disorders in the Wistar rat

EL Mostafi Hicham, Ibn Tofail University, Morocco

Abstarct

Speaker Slot available

Networking & Lunch Break

Tracking dementia together with Primary care in Singapore

Chris Tsoi, National University of Singapore, Singapore

Workshop

Nrf2 Inhibits NLRP3 Inflammasome Activation Through Regulating Trx1/TXNIP Complex in Cerebral Ischemia Reperfusion Injury

Jing Zhao, Chongqing Medical University, China

Atypical development of neurosyphilis mimicking limbic encephalitis

Karine Beiruti, Ziv Medical Center, Israel

Palm vitamin E reduces locomotor dysfunction and morphological changes induced by spinal cord injury and protects against oxidative damage

Sima Kianpour Rad, Iran

Abstarct

Speaker Slot available

Session Discussion

Networking & Refreshment Break

Session Introduction

Session Chair:

Neuroprotective role of Vitamin D in primary cortical neuronal cultures

Samina Hyder Haq, King Saud University, Saudi Arabia

The development of NCUs in China: a 2nd nationwide survey

Su Yingying, Capital Medical University, China

Abstarct

Speaker Slot available

Day 2

June 19, 2018

Keynote Forum

Victoria Palinska , Association of Neurologists of Ukraine, Ukraine

Mohammed ELSherif , Mansoura University School of Medicine, Egypt

Wai Kwong Tang , Chinese University of Hong Kong, China

KEYNOTE SLOT AVAILABLE

Networking & Refreshment Brea

Exercise-induced time-dependent changes in plasma BDNF levels of schizophrenic individuals

Viviane Rostirola Elsner, Methodist University Center-IPA, Brazil

Magnesium elevation affects fate determination of primary cultured adult mouse neural progenitor cells via ERK/CREB activatio

Wang Liao, Sun Yat-Sen University, China

Abstarct

Speaker Slot available

Speaker Slot available

Workshop

Networking & Lunch Brea

Session Introductic

Uniting Hospital Leaders in a Competitive Region To Improve Intravenous Thrombolysis Treatment Rates: Analysis of the SETRA Stroke Registry

Catherine M. Bissell, Clinical Development for SETRAC, Texas

Altered functional activation in verbal fluency linked to auditory verbal hallucinations

Katharina Kunzelmann, University Hospital of Psychiatry and Psychotherapy, Switzerland

The Anti-Phospholipid Syndrome (APS) as a mimicking syndrome of Multiple Sclerosis (MS)

Saeed Shahbeigi

Abstarct

Speaker Slot available

Closing Ceremony

Explore **Tokyo**

Travel in Tokyo is safe, easy, and efficient, and getting around is relatively inexpensive. The subway and train system is extensive, though transferring between the two different subway systems is more costly than traveling on only one. Transfers are sometimes a bit more complicated between JR lines and private railways. English-language signs abound, and English-language subway and train maps are available at major stations. Tickets are dispensed from vending machines, though there is always an attendant on hand (who usually speaks little if any English). There are many services to aid the foreign traveler, among them the Japan National Tourist Organization.

TOKYO *Attractions*

Disney Sea

Tokyo Bay

Disneyland

Mt Fuji

Sensoji Temple

St Pauls Cathedral

Tokyo Skytree

Nakamise Dori Street

Tokyo Tower
