

EuroSciCon

October 24-25, 2022
Florida, USA

2nd International Conference on

Neuroscience and Neurobiology

October 24-25, 2022 | Florida, USA (Hybrid Event)

Theme: Modern Revolution in Future Neuroscience and Neurobiology

Invitation

We are glad to announce the **2nd International Conference on Neuroscience and Neurobiology** to be held in **Florida, USA** (Hybrid Event) from **October 24-25, 2022** organized by EuroSciCon ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Leading Experts, Scientists, Societies, Researchers, Directors of Association, professors, Students, and other young professionals gather in Florida, USA (Hybrid Event)to speak and explore at Neuroscience -2023. , we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is about learning every day. Make it count in your professional life. Attend **Neuroscience-2022** Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level Neurologists, Neurosurgeons, Neuroscientists, and Researchers Neurology Faculty and Students from Academia in the Study of Neuroscience Field, We look forward to personally welcoming you to **Florida, USA** (Hybrid Event)- **October 24-25, 2022**.

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Practitioners and Educators accessing the website, **Neuroscience-2022** is the most lucrative platform for Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Neuroscience-2022 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

2nd International Conference on Neuroscience and Neurobiology proudly hosting for the Multinational Organizations, Entrepreneurs across the World and also extends a warm welcome to all the professional researchers and academicians as well as business professionals to take at Congress. Prominently Occupational Health Consultants, Occupational Health Doctors, Occupational Medicine Professionals, Regulatory Professionals, Pharmacologist Professionals, Laboratory Directors and Chemists, Physiotherapists, Psychologists and others who stay plunged in learning and practice of the Occupational Health and Public Safety.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Neurological Complications Of COVID_19
- Neuroscience And Neurology
- Neurodegenerative Diseases And Stress
- Brain Structure And Function
- Geriatric Psychiatry And Neurology
- Neuroimmunology
- Neurosurgery And Spine
- Human Brain Mapping
- Child And Adolescent Psychiatry
- Psychology And Mental Health
- Pediatric Neurology
- Neuropharmacology And Neuroendocrinology
- Brain And Neurological Disorders
- Neurotherapeutics, Diagnostics And Case Studies

About Destination Florida, USA

Florida, constituent state of the United States of America. It was admitted as the 27th state in 1845. Florida is the most populous of the south-eastern states and the second most populous Southern state after Texas. The capital is Tallahassee, located in the north-western panhandle. Geographic location has been the key factor in Florida's long and colourful development, and it helps explain the striking contemporary character of the state. The greater part of Florida lies on a peninsula that protrudes south-eastward from the North American continent, separating the waters of the Atlantic Ocean from those of the Gulf of Mexico and pointing toward Cuba and the Caribbean Sea beyond. Florida shares a land border with only two other states, both along its northern boundary: Georgia (east) and Alabama (west). The nearest foreign territory is the island of Bimini in the Bahamas, some 50 miles (80 km) to the east of the state's southern tip. Florida is the southernmost of the 48 conterminous United States, its northernmost point lying about 100 miles (160 km) farther south than California's southern border. The Florida Keys, a crescent of islands that forms the state's southernmost portion, extend to within about 75 miles (120 km) of the Tropic of Cancer. Florida's marine shoreline totals more than 8,400 miles (13,500 km), including some 5,100 miles (8,200 km) along the gulf; among U.S. states, only Alaska has a longer coastline.
