Invitation

Meetings International proudly announces the ***International conference on Nuclear medicine and Radiation therapy*** scheduled during ***July 17 and 18, 2018*** in ***Madrid, Spain***. The conference emphasizes the theme "***Tailoring precision diagnostics and therapy for improved personalized medicine***".

Meetings International provides an international dais for scientists and plant science professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of plants has come into spotlight in the recent years. Many of the floral species have become extinct due to the human activities. Thus, priorities are given for the plant research to produce more production to support the ever-growing population of the world.

Sincerely,
Operating Committee

Explore Madrid

Spain is a country located in extreme south-western Europe. It occupies about 85 per cent of the Iberian Peninsula, which it shares with its smaller neighbour Portugal. It is the country with the third-largest number of UNESCO World Heritage Sites, after Italy and China. Spain is considered an exotic country in Europe due to its friendly inhabitants, relaxed lifestyle, its cuisine, vibrant nightlife, and world-famous folklore and festivities.

Madrid is best known for its great cultural and artistic heritage, a good example of which is the El Prado museum. Madrid also boasts some of the liveliest nightlife in the world. The climate of Madrid is continental; spring and autumn are definitely the best times to visit, especially the months of April, May, July, September and October. Madrid is a popular tourist attraction, with the famous ones being Puerta del Sol, Plaza Mayor, Mercado de San Miguel, Gran Vía, Plaza de Cibeles, etc.
