Exploring the Current Challenges and Possibilities in Nursing and Healthcare

Welcome Message

Meetings International proudly announces the Global Experts Meeting on "World Congress on Nursing and Healthcare" scheduled on October 29-30, 2018, Osaka, Japan with a theme of "Exploring the Current Challenges and Possibilities in Nursing and Healthcare".

Meetings International provides a Global Platform for Nursing Professionals, Nursing Practitioners, Medical and Healthcare Professionals to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences.

Nursing 2018 aims to discover advances in health practice, management and education in relation to health disparities as well as a breadth of other topics. A nursing Professional has a special set of competence and ability. Not only can they diagnose patients and finally provide medication, but they also serve in leadership and consulting roles. NCS's are prominent and impact health care across the board, from reducing medical complications to improving patient satisfaction.

Nursing Conferences aims to discover advances in health practice, management and education in relation to health disparities as well as a breadth of other topics. The Nursing Conference is a platform for nursing students, faculty, deans, researchers, and leaders to collaborate on topics affecting nursing education. Attendees can: Take advantage of opportunities to learn about Nursing Conference from a variety of oral and poster presentations. Meet and network with nurses ranging from students to deans, faculty, and researchers. Take advantage of opportunities to collaborate with nurses from around the world. Attend prominent plenary sessions about relevant issues affecting nursing care.

This Conference involves of the theoretical and practical training provided to nurses with the purpose to prepare them for their duties as nursing care professionals. This education is provided to nursing students by experienced nurses and other medical professionals who have qualified or experienced for educational tasks. Most countries offer nurse education courses that can be relevant to general nursing or to specialized areas including mental health nursing, pediatric nursing and post-operatory nursing. Courses leading to autonomous registration as a nurse typically last four years. Nurse Care also provides post-qualification courses in specialist subjects within nursing.

Meetings International Nursing Meeting will offer you an unmatched attendee experience. In addition to the many scientific sessions and take-home case study examples, you will leave this event with many other evidence based practice from some of our workshops and symposiums. We hope you will join us in Osaka this October.

Sincerely,

Operating Committee

CEO and Founder

Meetings International PTE LTD.

Who Should Attend?

- Nursing Professionals
- Nursing Practitioners
- Medical and Healthcare Professionals to Exchange Ideas
- Knowledge and Networking at its 100+ International Conferences

Why Attend?

Sponsorship Packages

- Diamond Sponsor
- Gold Sponsor
- Silver Sponsor
- Bronze Sponsor
- Exhibition

For any other and customized packages, write to Program Manager.

About Osaka

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". With a population of 2.5 million, Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. The city's west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the Tempozan Harbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre. The Museum of Oriental Ceramics holds more than 2,000 pieces of ceramics, from China, Korea, Japan and Vietnam, featuring displays of some of their Korean celadon under natural light.
