Welcome Message

5th World Congress on

Nursing and Healthcare

April 15-16, 2019 | Milan, Italy

Jeff Solheim
President of Solheim Enterprises
West linn, USA

Dear Colleagues,

It is my pleasure to welcome you to the fifth world congress on Nursing and Healthcare. This year's conference will be hosted by the beautiful city of Milan Italy and this year's theme is "Innovations and Challenges in Nursing and Healthcare".

My career has allowed to me to travel extensively around the globe, meeting hundreds of nurses on six of the seven continents. What amazes me most as I meet nurses working around this world is how much similarity there is in the passion that is brought to the profession as well as similarities in the challenges that are commonly faced regardless of where a nurse works. Although there are stark differences in the way nursing may be practiced in different parts of the world, the similarities and challenges are more similar then they are different.

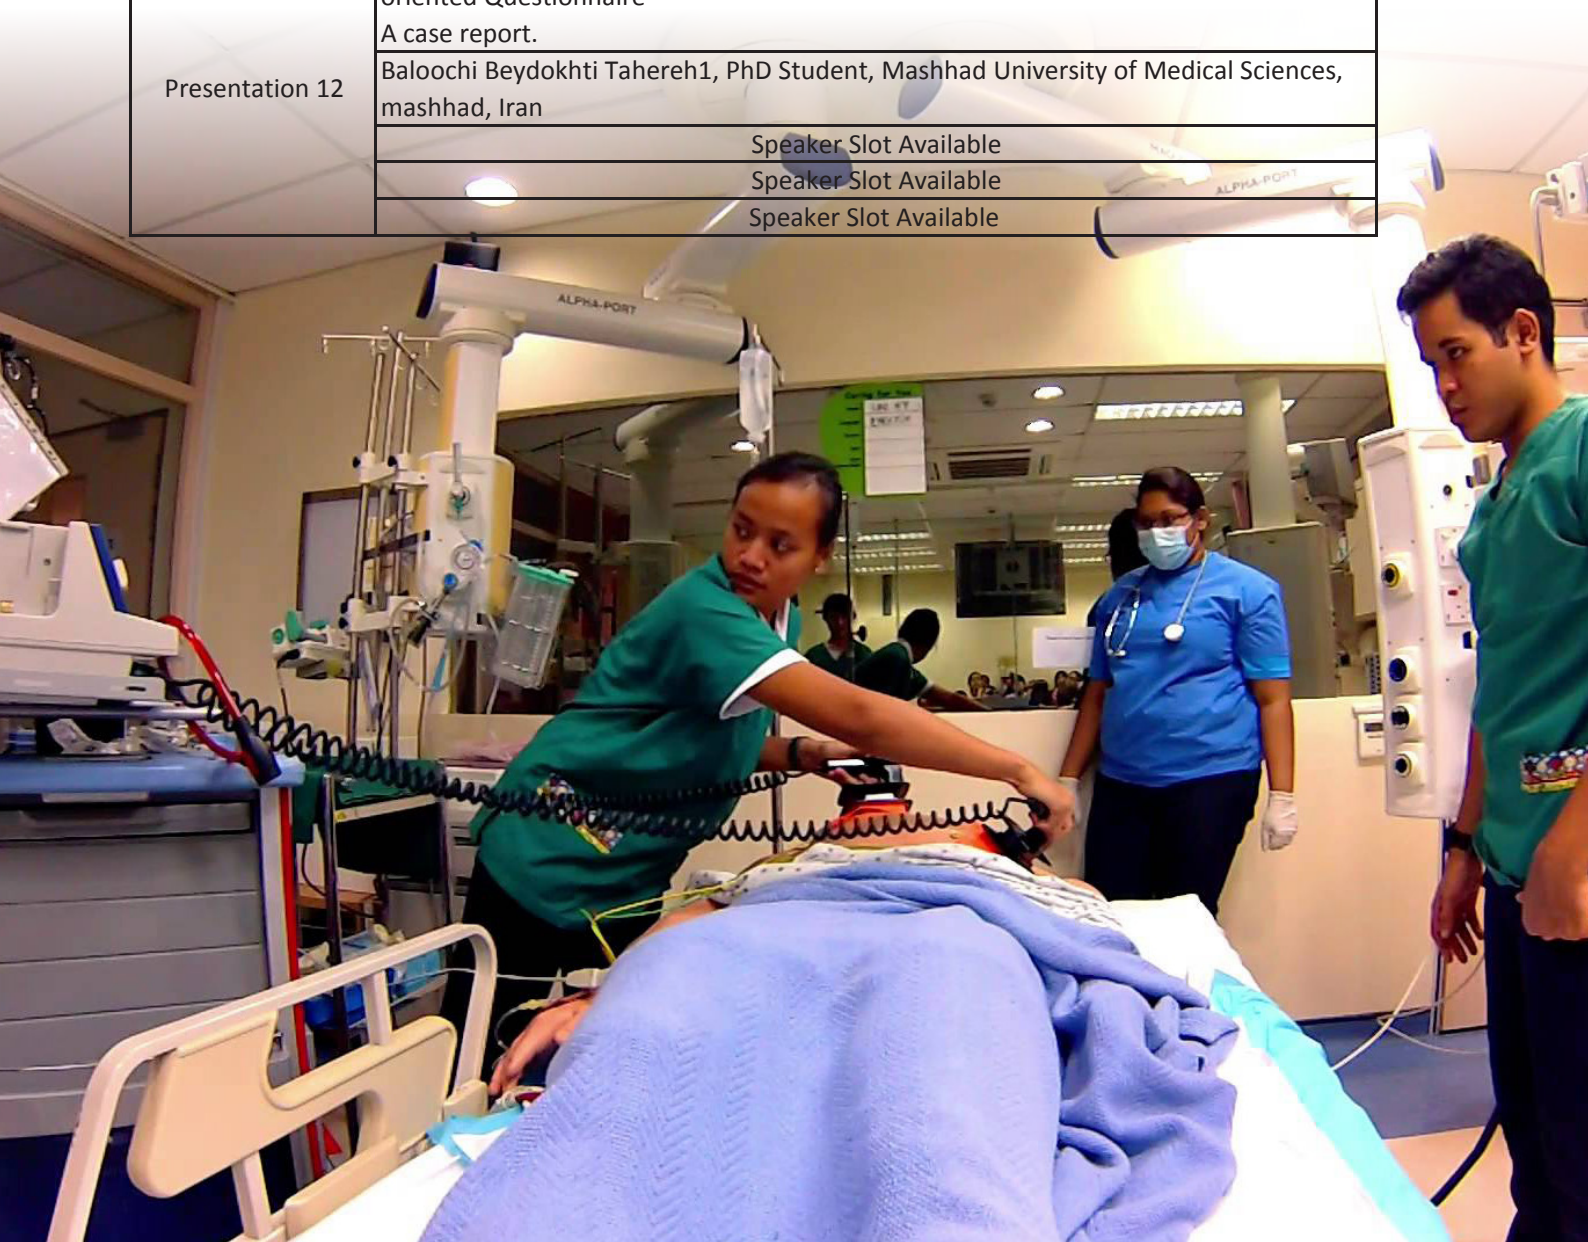

While the profession of nursing has been in existence for hundreds of years, it continues to experience constant change and evolution. This year's conference is meant to highlight the latest innovations in the ever-changing world of nursing care. Equally important will be the networking opportunities afforded to attendees who can meet nursing colleagues from diverse backgrounds, sharing ideas and challenges with one another. Whether you are nurse providing direct patient care, a nursing educator or a nursing administrator, this year's line-up of speakers promises to be thought-provoking stimulating innovative thought and conversation.

I look forward to meeting you in Milan in April of 2019

Jeff Solheim
President of Solheim Enterprises
West linn, USA
