November 28-29, 2018 | Madrid, Spain

https://www.meetingsint.com/nursing-conferences/nursing-research

Invitation

Meetings International proudly announces the 3rd International Meeting On Nursing Research and Evidence Based Practice scheduled during November 28-29, 2018 in Madrid, Spain. The conference emphasizes the theme "Current Challenges and Innovations in Nursing Research".

Meetings International extends its welcome to "3rd International Meeting on Nursing Research and Evidence Based Practice" scheduled on November 28-29, 2018 in Madrid, Spain. The main theme of the conference is "Current Challenges and Innovations in nursing research".

This global meeting will provide a distinctive forum to meet eminent personalities and experience inspiring talks in the field of nursing and there will be a great affiliation of healthcare scientists, professors, nurse practitioners, health care researchers, nurse associations, registered nurses, doctors, and faculty of nursing during exciting round table discussions, question-answer sessions and unique poster presentations which will help in modernization and advancement of nursing education and innovations.

Nursing Meeting 2018 offers a number of unique opportunities to enrich your career. You can learn new approaches to clinical practice, fine-tune your skills, work with state-of-the-art technology and learn from professionals at the forefront of medical advances

Glimpses of Nursing Meeting 2018

Welcome Message!

It is a great pleasure and an honour to extend our warm invitation to attend the "3rd International Meeting On Nursing Research and Evidence Based Practice" (Nursing Meeting-2018). Nursing Meeting- 2018 will be held in Madrid, Spain during November 28-29, 2018. The conference will focus on "Current Challenges and Innovations in nursing research".

Nursing-2018 unites individuals who have an excitement for different fields of nursing like psychiatry, instruction, tumor, heart, basic care, Womens wellbeing, pediatrics, crisis nursing, maternity care and general wellbeing. The gathering objective will give a logical discussion to all scientists and academicians around the globe and empower the intelligent trade of cutting edge information. The first and second International Nursing Conferences (Nursing-2016 and Nursing-2017) occasions were gigantic achievement, as the members delighted in, acknowledged, and were improved by the introductions given by the broadly perceived speakers. They additionally respected the presentation to the new research and headways displayed amid the 2 day meeting. The meeting has a get-together of nursing research specialists from everywhere throughout the world.

The benefits of this large-scale collaborative meeting include broader content areas, efficiency in meeting attendance and costs for delegates and trade partners, a more diverse variety of sessions, and increased attendees. Our scientific program includes invited plenary presentations, symposia and seminars, meet-the-professor sessions, basic and clinical abstract presentations, young investigator awards, and interactive poster sessions.

Why to Attend?

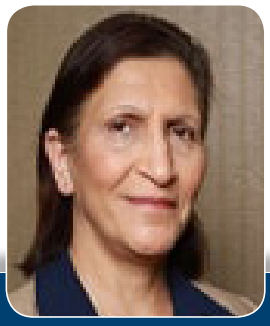

The meeting will provide many opportunities to network and discuss science and medicine, ensure equity of opportunity, find new funding and research opportunities, and build collaborations and contacts with international colleagues. This event is suited to anyone with an academic or professional interest in reproduction and its research; including Researchers, Senior scientists, Gynaecologists', Reproductive Endocrinologists, Professors, Doctors, Nurses, Healthcare Professionals, Pharmacologists, Clinicians, Directors of Association and Societies, Postgraduate students, midwife and those who work in research and development of pharmaceuticals and related technology.
