Singapore Attractions

Explore Singapore

Singapore, city, capital of the Republic of Singapore. It occupies the southern part of Singapore Island. Its strategic position on the strait between the Indian Ocean and the South China Sea, by its deepwater harbor, has made it the largest port in South east Asia and one of the world's greatest commercial centers. The city, once a distinct entity, so came to dominate the island that the Republic of Singapore essentially became a city-state.

Singapore known variously as the "Lion City" or "Garden City," the latter for its many parks and tree-lined streets—has also been called "instant Asia" because it offers the tourist an expeditious glimpse into the cultures brought to it by immigrants from all parts of Asia. While predominantly Chinese, it has substantial minorities of Malays and Indians. Singapore's port area, one of the world's largest, covers 36 square miles (93 square km).

The port's main imports include machinery, textiles, and rice. The Malayan rail system from Bangkok and Kuala Lumpur terminates at Singapore.
