Welcome Message

Meetings International proudly declares International Meeting on Nutraceuticals during March 19-20, 2018 at Singapore. Nutraceuticals Meeting 2018 is a central discussion for Nutraceuticals Specialists, Nutritionists, Enlisted Dietitians, Academic Faculties, President's, Founders, CEO's, Business Delegates, Experts in Nutrition and Dietetics, Youthful Scientists and skilled understudy groups from colleges and research labs giving an ideal space to share the latest advancements in the Nutraceuticals research. We have dealt with various Nutraceuticals events, Nutraceuticals Conferences which build great relations, bringing the experts and organizations together.

Nutraceuticals 2018 gives a deep instinct into the most recent discoveries and advancements in the field of Nutraceuticals under the theme "Nutraceuticals as Pharmaceuticals: A New Therapeutic Approach". The program is a rich unification of arrangements going from keynote sessions featuring well known and thought provoking speakers to intense and interactive talks which are expected in a way where scientists and specialized staff from both academia and industry can creating a better stage for exchange of thoughts.

The term Nutraceutical is formed by the combination of the two words "Nutrition" and "Pharmaceutical". Nutraceutical includes food or food products that claim to prevent chronic diseases, enhance health condition, delay the aging process, as well as increment future. Their part in human nutrition is one of the most critical areas of investigation, with wide ranging implications for consumers, medical services suppliers, food producers and distributors.

Nutraceuticals can be categorized on the basis of their natural sources, chemical constituents and pharmacological states of the products. The diverse classifications of nutraceuticals are dietary supplements, functional foods, medicinal foods and farmaceuticals.

Throughout the years Nutraceuticals have attracted noticeable interest because of their nutritional, safety and therapeutic effects. They could have a part in a plenty of biological processes, including antioxidant effects, gene expression, cell proliferation and many others.

Increasing awareness about fitness and health are provoking the majority of people to lead healthy lifestyle, exercise more, and good eating habits. The extending Nutraceutical market shows that end users are looking for minimally processed food with extra nutritional value. This development, thus, is impelling extension in the Nutraceutical markets globally.

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

About Singapore

Though the city is small, Singapore is an economic giant. For more than a century it has been South-East Asia's most advanced city. The city is a mixture of Malay, Chinese, Arab, Indian and English societies and religions. Its special ethnic environment invites visitors to explore a wide range of sightseeing and culinary opportunities.

The traditional festivals celebrated throughout the year adds to its cultural attraction. What's more, Singapore offers lavish inns, heavenly food and extraordinary shopping! The Republic of Singapore contains the island of Singapore and 58 or so littler islands. As a result of its effective and resolved government, Singapore has turned into a thriving nation that exceeds expectations in trade and tourism and is a model to developing countries. The capital city, likewise called Singapore, covers about 33% of the main island.

Situated at the tip of the Malay Peninsula, Singapore's tropical atmosphere invites both recreation and business travelers throughout the year. The island's amazing framework empowers guests to make the most of its many locales and attractions in a clean, safe and environment friendly conditions. Award winning Changi Airport gives air-links to major cities around the globe. The subway and train frameworks are quick, clean and effective. Moreover, its best in class cruise terminal has set up Singapore as one of the best cruising centers.

In the city, there is no requirement for a car. Public transportation is phenomenal and strolling is a decent approach to investigate the city. All major tourist attractions are easily accessible by the tour bus. Since the city is just 60 miles from the equator, the tropical temperature doesn't shift by much. Regardless of when you visit, warm climate will always be available. The guest is struck instantly by Singapore's wealth of parks, nature reserves and lavish, tropical greenery.

Singapore's advance in the course of recent decades has been noteworthy, yet the island has not been overpowered by improvement. Guests will find an abundance of historical treasures of the past, in the magnificence of more historical structures, tradition and values that have made due despite significant social and land change.
