2ND WORLD CONGRESS ON OBSTETRICS AND GYNECOLOGY

Obstetrics-2019

March 27-28, 2019 | Paris, France

WELCOME MESSAGE:

Message from Prof Sergey Suchkov,

Dear Colleagues, Partners, Scientists, Clinicians, and Friends,

On behalf of the Organizing committee, I cordially invite you to present and contribute your invaluable experience at 2nd world Congress on Obstetrics and Gynecology, which will be held during March 27-28, 2019 in Paris, France.

The mission of The Congress is to provide comprehensive personalized and precision care for women, emphasizing the whole patient and/or a person-at-risk. Those meetings enjoy international reputation for excellence in teaching, patient care, and research being delivered to the attendants. So, the Congress usually attracted participation from many of established leaders. This year's forum will build on that tradition, but with a more concentrated focus on generating solutions to the field's challenges. The latter would propose ways to encourage investment in innovation and stimulate the adoption of obstetrics, gynecology and family medicine in the daily practice.

The Program will cover cutting edge topics in daily practice, the most recent development and management of the rapidly evolving health care requirements, as well as the crucial challenges concerning low resource countries. The lectures and sessions will be provided by worldwide recognized experts in the field mentioned, representatives of universities, private practice, major hospitals and health care institutions from around the globe.

I do hope that you will enjoy the Congress and will stimulate a creative exchange of ideas and will be personally rewarding.

On behalf of the Organizing Committee, please accept my best wishes for this informative and enjoyable event.

Yours truly,

Dr Sergey Suchkov, MD, PhD
Director, Center for Personalized Medicine, Sechenov University and
Chair, Dept for Translational Medicine, Moscow Engineering Physical Institute (MEPhI), Russia
Member, New York Academy of Sciences, USA
Secretary General, United Cultural Convention (UCC), Cambridge, UK

Scientific Program	
2nd World Congress on Obstetrics and Gynecology	
Day 1, March 27-28, 2019 Paris, France	
	Registration
	Opening Ceremony
	Introduction
Keynote Forum	
Keynote 1:	**Title** : The PI3K/AKT/mTOR-signalling pathway offers therapeutic options and is the reason for chemoresistance in gynaecological cancer.
	Jens Hahne,Higher Scientific Officer in Laboratory of Gastrointestinal Cancer Biology and Genomics , UK
	Biography : After studying general chemistry and biochemistry at the Albert-Ludwigs-University Freiburg i.Br. (Germany) Jens got the PhD in biochemistry from the same university
Workshop	
Workshop 1:	**Title**:Use of modern molecular biological methods for translational research and as tool for cancer patient stratification
	Jens Hahne,Higher Scientific Officer in Laboratory of Gastrointestinal Cancer Biology and Genomics , UK
	Biography : After studying general chemistry and biochemistry at the Albert-Ludwigs-University Freiburg i.Br. (Germany) Jens got the PhD in biochemistry from the same university
Group Photo	
Refreshment & Networking
