Dear Colleagues,

Meetings International provides an international dais for scientists and experts to exchange ideas, knowledge and networking at its 100+ International Conferences.

Meetings International invites all the participants across the globe to attend the International Conference on Oncology and Radiology during December 03-04, 2018, Sydney, Australia. The theme of the conference is "Advancements in Oncology and Radiology, different perspectives to cure cancer" and to encourage young minds and their research abilities by providing an opportunity to meet the experts in the field of Oncology and Radiology from all over the globe.

Oncology – The study of cancer, is a much known firm with emerging inventions patenting in order to cure as well as prevent people from the risk of cancer. Since now, more than 120 types of cancer have been reported. Apart from more common cancers, rare cancers like Ataxia-Telangiectasia, Familial GIST are also affecting peoples in various parts of the world.

Radiology is the use of radiations for imaging that are used to diagnose and in sometimes to treat diseases within human body. This was done by a trained physician, called as Radiologist. The simultaneous development of high energy treatment machines and softwares which are used for treatment planning has made radiotherapy as a therapeutic tool for various malignancies. Oncology and Radiology 2018 will fetch you a different aspect of looking these firms and promote developments in these areas.

Conference Highlights :

- Oncology and Radiology
- Oncology Statistics
- Medical Oncology
