Meetings International

4th International Conference on

Optical, Atomic and Molecular Physics

Optical Physics 2019

November 27-28, 2019 | Singapore City, Singapore

INVITATION

Optical Physics 2019

Meetings International proudly announces the **4th International Conference on Optical, Atomic and Molecular Physics** scheduled during **November 27-28, 2019 at Singapore City, Singapore.** The conference emphasizes the theme "**Exploring ideas in current research and future vision of modern physics**".

Meetings International provides an international dais for scientists and Physics professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of Physics has come into spotlight in the recent years. The main objective is to make this meeting an event of scientific excellence, attractive to both industrial and academic scientists in Physics.

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

Important Dates

Early Bird: **June 30, 2019**

Abstract Submission Open!

Register Now!

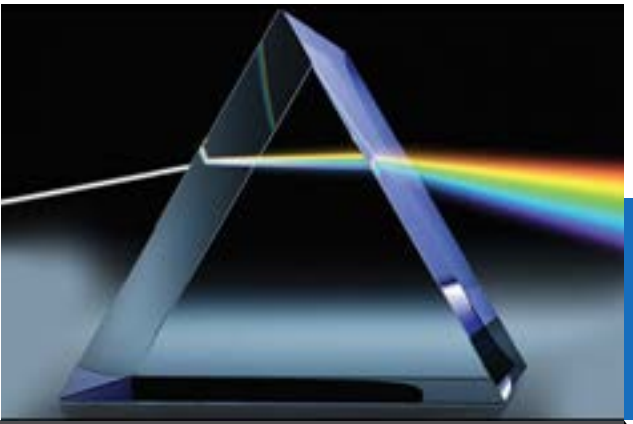

On Spot Registration: **November 27, 2019**

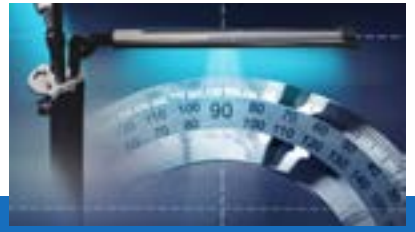

Singapore City, Singapore

CONFERENCE HIGHLIGHTS

- Atomic and Molecular Physics
- Solid State Physics
- Quantum Physics
- Plasma Physics
- Particle Physics
- Laser Optics
- Nanoscale Physics
- Emerging Smart Materials
- Experimental Condensed Matter and Materials Physics
- Graphene
- Atomic Physics
- Fiber Laser Technology

Meetings Int. offers

An unique platform for top level research and innovation

Singapore City, Singapore

Optical Physics 2019

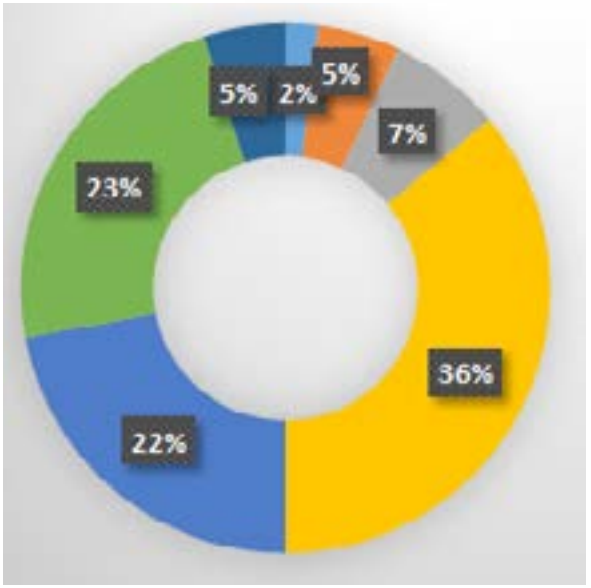

WE VALUE

Quality research

To identify the future directions of research

Peer review and high quality publication

- Head Management/CEO/Manager
- Dean
- Director
- Professor
- Students
- Research Scholars
- Business Enterprenures

ABOUT SINGAPORE

Optical Physics 2019

Singapore has been depicted as a play area for the rich, and the facts confirm that the little city-state has a specific sheen of riches. Be that as it may, Singapore offers something other than the top of the line shopping centers, lavish Hotels to stay, and fine eating (however it merits enjoying those a bit on the off chance that you can). There is additionally a lively history and different ethnic quarters to find, alongside some family-accommodating attractions and stunning open spaces that make visiting this marginally cutting-edge city beneficial. Singapore has an amazing open transportation framework that makes getting around helpful and simple. Once you've got a feeling of the metro to delineate, have no issues traveling from one station to the next. English is talked all over the place, and signs are in English also. Truth be told, Singapore is one of the simplest and most agreeable nations to explore in Southeast Asia. What's more, insofar as you're not contrasting costs with close-by Thailand or Vietnam, you're in for a flawless remain. During the daytime, hop-on-hop-off bus services are there for the city tour. Merlion park has been well known for the water fountain from a statue of Lion which is a signature spot to visit.
