Meetings International

4th International Conference on

Optical, Atomic and Molecular Physics

December 02-03, 2019 | Berlin City, Germany

Theme:

Exploring ideas in current research and future vision of modern physics.

www.meetingsint.com/conferences/physics

4th International Conference on Optical Atomic, and Molecular Physics
December 02-03, 2019 | Berlin, Germany
PRESENTATION : KEYNOTE - ORAL
Registration
Opening Ceremony
Introduction
Title: Quantum mechanics as a continuous matter dynamics
Elidae Stefanescu, Advanced Studies in Physics Centre of the Romanian Academy , Romania
Title: Generalized Lorenz-Mie theories and mechanical effects of laser light, a celebration of Arthur Ashkin's pioneeering work in optical levitation and manipulation.
Gérard Gouesbet, Saint-Etienne du Rouvray, France
Title: TIME – calculation process is yet to discover
Sahriar Ahamed , Gollamari North Bank (GNB) , Bangladesh
Title: Realization of the relationship between quantum mechanics and relativity
Mohamed daris,University of sciences ,Morocco
Title: On an infinite number of quadratures to evaluate beam shape coefficients in Generalized Lorenz-Mie theory and Extended Boundary Method for structured laser beams
Gérard Gouesbet, Saint-Etienne du Rouvray, France
** Keynote slots available **
**Speaker's slots available **
Group Photo and Tea Break
Workshop Slot Available
Lunch Break
Title: PEN vs. COMPUTER - how to write by hand improves memory and creativity
Dario Furnari, University of catania, England
Title: Standard ModelL Of Particle Physics as a Quantum field Theory
Dhyey Dharmendrakumar Mavani, P. P. Savani Cambridge International School. Gujarat, India
Title: AI in Physics
Hakima Mokraine, PhD, Expaceo, France
** Keynote slots available **
**Speaker's slots available **
Tea Break
Group Discounts
3 or more members from the same lab/institute/university (or) anyone who wish to attend
Note: Tentative Program has been designed with the projected speakers' names and titles, dates for this program are subject to change Avail Speaker Opportunity: Send us your abstract and biography by June 2019 also send your proposals & details to confirm your participation and Book Your Dates: Optical Physics 2019 during December 02-03, 2019 in Berlin, Germany.
E-MAIL: physics@insightsummits.com

About Berlin City

Berlin is the capitol of Germany (since 1990 following German reunification) and has a population of 3.5M people. Berlin's economy is mainly based on the service sector due to being one of the most popular touristic destinations in Europe. Other industries include IT, pharmaceuticals, renewable energy, biomedical engineering, and biotechnology. Lately Berlin also is the epicenter for new and successful startups and sometimes is referred to as Silicon Allee (deriving from the original Silicon Valley in the U.S). Located in the eastern part of Germany Berlin is an important hub to the Eastern European states like Poland. Berlin is relatively flat and its biggest river is called Spree. In the Western Berlin borough Spandau the Spree meets the Havel. In this area there are many of the lakes like Wannsee and Tegeler See. But also if you take the S-Bahn direction East you will soon find yourself in the middle of great nature and lots of nice lakes that invite you to jump in and cool off during summertime.
