12TH INTERNATIONAL CONFERENCE ON

ORAL HEALTH AND HYGIENE

OCTOBER 19-20, 2020 | LONDON, UK

Oral Health 2020

Invitation

Dear Attendees,

Meetings International proudly announces the 12th International Conference on Oral Health and Hygiene scheduled during October 19-20, 2020 in London, UK. The conference emphasizes the theme "Advanced Research and Future of Oral Health & Dental Science".

Oral health is a key indicator of overall health, wellbeing and quality of life. Poor oral hygiene can lead to dental cavities and gum disease, and has also been linked to heart disease, cancer, and diabetes. Maintaining healthy teeth and gums is a lifelong commitment. The earlier you learn proper oral hygiene habits such as brushing, flossing, and limiting your sugar intake the easier it'll be to avoid costly dental procedures and long-term health issues. A mouth rinse, in addition to daily brushing and flossing, can increase the cleanliness of your mouth. Antimicrobial mouth rinses reduce bacteria and plaque activity, which cause gingivitis and gum disease. Fluoride mouth rinses also help reduce and prevent tooth decay. Always talk to your dentist about any new products you are interested in trying. Not everyone should use a fluoride mouth rinse. For instance, fluoride rinses are not recommended for children ages 6 or younger because they may swallow them. Always check the manufacturer's label for precautions and age recommendations and talk with your dentist about the use of fluoride mouth rinse

Sincerely,

Operating Committee

Explore London

London is the capital and most populous city of England and the United Kingdom. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km) medieval boundaries. London a region governed by the Mayor of London and the London Assembly. London is one of the leading global cities in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is the world's largest financial centre and has the fifth or sixth largest metropolitan area GDP in the world. London is often regarded as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport system measured by passenger traffic. London's universities form the largest concentration of higher education institutes in Europe. It's estimated mid-2016 municipal population (corresponding to Greater London) was 8,787,892, the largest of any city in the European Union and accounting for 13.4% of the UK population. London's urban area is the second most populous in the EU, after Paris, with 9,787,426 inhabitants.
