INTERNATIONAL CONFERENCE ON

# ORPHAN DRUGS & RARE DISEASES

MARCH 16-17, 2020 | BERLIN, GERMANY

Orphan Drugs 2020

# Invitation

Dear Attendees,

Meetings International proudly announces the International Conference on Orphan Drugs & Rare Diseases scheduled during March 16-17, 2020 in Berlin, Germany. The conference emphasizes the theme "A step towards advancement in the research and treatment of rare diseases".

The gathering gives the worldwide arena to global researchers, professors, doctors, scientists, chemist, students, business delegates and young researchers across the globe to voice their examination discoveries to the world. All the global leaders in Oncology, Immunology and Dermatology share their research at this exclusive scientific program. The conference is aimed at identifying advances in the field of rare diseases. The conference's goal will to provide a scientific forum for all international prestige scholars around the world and enable the interactive exchange of state-of-the-art knowledge. The conference will focus on evidence-based benefits proven in clinical trials and scientific experiments.

Sincerely,

Operating Committee

Orphan Drugs 2020

- Rare Skin Diseases
- Immunological Rare Diseases
- Clinical Case Studies on Rare Diseases

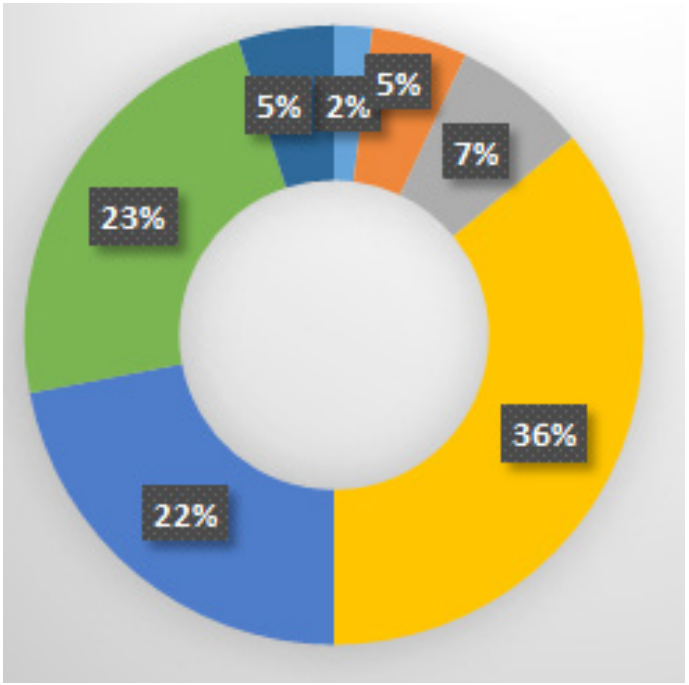

To identify the future directions of research

Peer review and high quality publication

Quality research

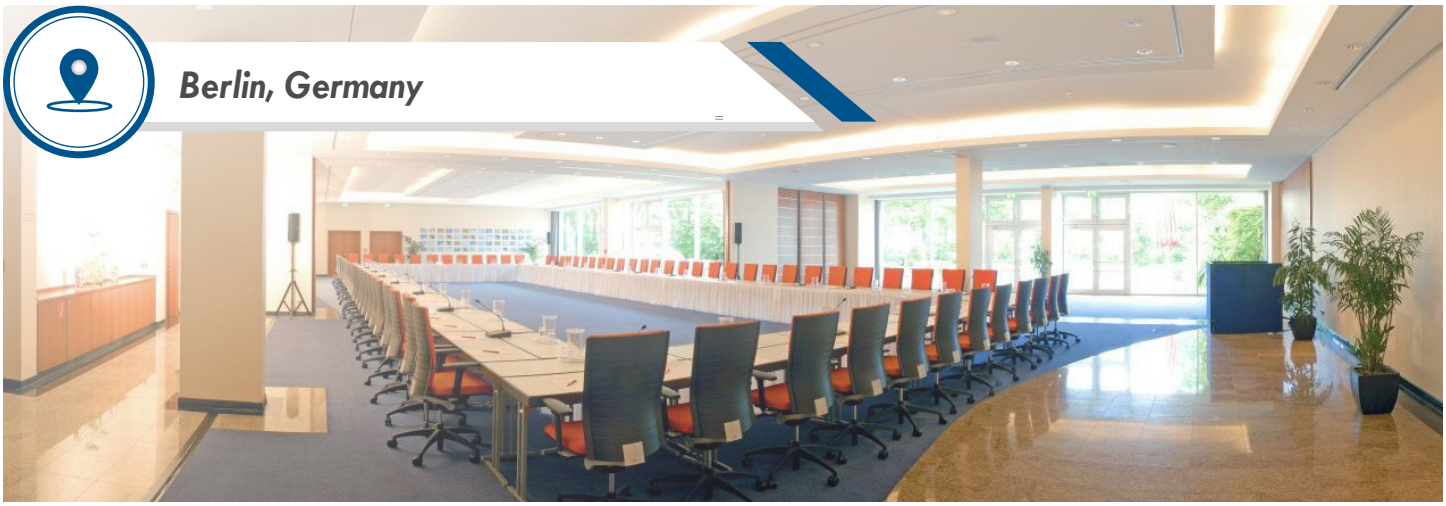

# Explore Berlin

Berlin, German is the capital and largest town of Germany by using both location and population. Its 3,748,148 (2018) inhabitants make it the second most populous city proper of the European Union after London. The city is one of Germany's 16 federal states. Germany is a very popular location for studying medicine in Germany, offering very high-quality education at an affordable price. There are 35 governmental universities and four private universities that offer medical programs in all major cities and regions. Important to mention is that the medical programs in Germany are not divided into Bachelor and Master Programs. The medical training program takes a minimum of six years to complete and is taught almost entirely in German language. Consequently a very strong knowledge of the language is obligatory.
