Meetings International

Annual Summit on

PATHOLOGY

April 17-18, 2019 | Tokyo, Japan

Theme:

Current Trends, Advancements and Emerging Challenges

https://www.meetingsint.com/conferences/pathology

Day 1 17-Apr-19	
9:00-9:30	**Registrations**
9:45-10:00	**Session Introduction**
Keynote Forum	
Speaker 1	**Title: Biology of Rhizoctonia sp. complex in maize cropping zones of India and its potential to cause economic losses**
	Vimla Singh, CCS Haryana Agricultural University, India
	Vimla Singh is presently Woman Scientist-DST, at CCS Haryana Agricultural University, Haryana, (India). She has been associated with Maize research since 2006 and has characterized virulence of Rhizoctonia solani for the maize cropping zones of India.
Group Photo	
Networking & Refreshment Break	
Speaker 2	**Title: Variable trends in major diseases of maize in the global climate change scenario**
	Rakesh Mehra, CCS Haryana Agricultural University, India
	Rakesh Mehra is Principal Scientist (Plant Pathology) at CCS Haryana Agricultural University, Karnal, Haryana, (India) and is associated with maize and sugarcane research in India.
Speaker 3	**Title: Study of outcome of FNAC cervical lymphnode from Hamidia Hospital Bhopal**
	Kamlesh B Patel, Livepath laboratory, India
	Kamlesh B Patel is working owner of Livepath laboratory for Pathology and Microbiology. He has published his article in international journal name "Antenatal detection of IgM and IgG antibodies to Toxoplasma gondii in a hospital from central India".
Speaker 4	**Title: Insulin therapy and autoimmune disease with relevance to nonalcoholic fatty liver disease**
	Ian James Martin, Edith Cowan University, Australia
	Ian James Martins is an Editor/Reveiwer for Open Acess Pub/MDPI journals/other international journals. Advisory Board Member for Photon Journal. Fellow of International Agency for Standards and Ratings (IASR).
Lunch Break	
Oral Session 1	
Speaker 5	**Title: Identification of genes involved in soybean response to SMV infection**
	Hada Wuriyanghan, Inner Mongolia University, China
	Hada Wuriyanghan is working as a professor in Inner Mongolia University now. He has published more than 10 papers in reputed journals.
Speaker 6	**Title: Need for authentic laboratory services**
	Kamlesh B Patel, Livepath laboratory, India
	Kamlesh B Patel is working owner of Livepath laboratory for Pathology and Microbiology. He has published his article in international journal name "Antenatal detection of IgM and IgG antibodies to Toxoplasma gondii in a hospital from central India".
Speaker 7	**Title: Therapeutic use and preventive potential of natural antioxidants, such as curcumin, resveratrol and palm fruit bioactives**
	Robert P. Weinberg, Massachusetts Institute of Technology, USA
	Robert P. Weinberg is a founding Member of Whitehead Institute and a National Medal of Science recipient, Robert A. Weinberg is a pioneer in cancer research most widely known for his discoveries of the first human oncogene.
Speaker 8	**Title: Symptomatic, histopathological and biochemical response of selected maize cultivars to post flowering stalk rot in maize**
	Meena Shekhar, National Bureau of Plant Genetic Resources, India
	Meena Shekhar is Principal scientist in Plant Quarantine Division, National Bureau of Plant Genetic Resources, Pusa Campus, New Delhi (India). She has long experience in working in Post flowering stalk rot of maize.
Networking & Refreshment Break	
Panel Discussion	
Day 2	
18-Apr-19	
Keynote Forum	
	Introduction
Speaker 9	**Title: Recent advances in the reporting of salivary gland cytology- the real basic facts & limitations**
	Mulazim Hussain Bukhari, University of Lahore, Pakistan
	Mulazim Hussain Bukhari is the HOD of Department of Pathology, UCM, University of Lahore, Pakistan. He has published more than 250 papers in reputed journals and has been serving as an editorial board member of repute.
Networking & Refreshment Break	
Speaker 10	**Title: Reference values for some hematological parameters in the Iraqi local horses**
	Firas Rashad Al-Samarai, University of Baghdad, Iraq
	Firas Rashad Al-Samarai is a board member in several journal. He has published more than 45 papers in reputed journals)
Speaker 11	**Title: Comparative efficacy of different fungicides against Late Blight Diseases of potato incited by Phytophthora infestans (Mont.) de Bary and standardized the doses for its management**
	N.A. Siddique, Rajshahi University, Bangladesh
	N.A. Siddique has an experience in tissue culture laboratory as well as has an experience to ensure quality of potato seed production farm especially in mini-tuber and breeder seed of potato production within net house and foundation and certified seed of potato production in field.`
Speaker 12	**Title: What is new in the Revised WHO classification of lymphoma after eight years (2008-2016)**
	Mulazim Hussain Bukhari, University of Lahore, Pakistan
	Mulazim Hussain Bukhari is the HOD of Department of Pathology, UCM, University of Lahore, Pakistan. He has published more than 250 papers in reputed journals and has been serving as an editorial board member of repute.
Lunch Break	
Oral Session 2	
Speaker 13	**Title: Characterizing kidney structures in health and diseases using eosin fluorescence from hematoxylin and eosin stained sections**
	Rehan Ahmed Siddiqui, Ziauddin University, Pakistan
	Rehan Ahmed Siddiqui is the Assistant Professor of Molecular Medicine at Department of Research, Ziauddin University. His research area includes histology/histopathology, animal model of diseases and high resolution microscopy.
Speaker 14	**Title: The role of fine needle aspiration cytology in the diagnosis of deep-seated lesions in Sudanese patients**
	Esam Suliman, Maternity and Children Hospital, Saudi Arabia
	Esam Suliman is a Pathologist with a wide range of experience in all aspects of Pathology especially Histopathology and Cytology. He has wide range of work experience during the past twenty years in several hospitals and universities in Sudan.
Poster Presentations	
Poster Judge	
P1	**TBA**
	TBA
P2	**TBA**
	TBA
Networking & Refreshment Break	
Panel Discussion	
Award Ceremony	
This program is tentative and it may be subjected to modifications	

About Tokyo

Tokyo being Japan's bustling capital, fuses the ultramodern and the conventional, from neon-lit high hikes to indelible sanctuaries. The lavishing Meiji Shinto Shrine is known for its transcending door and encircling woods. The Imperial Palace sits in the midst of colossal open greenery enclosures. The city's plentiful galleries offer displays expanded from authorised workmanship (in the Tokyo National Museum) to a emulated kabuki theatre (in the Edo-Tokyo Museum).

The Institute of Medical Science founded in 1892 as ''The Institute of Infectious Disease'', located in the University of Tokyo. The Institute has its own affiliated research hospital is Japan's research institute for medical science. The University of Tokyo Hospital provides an accurate and high-quality pathological diagnosis. Regular case review conferences are held jointly with the clinical division to make high-quality diagnoses. Their Division of Histopathology plays a leading role in Japan in promoting rapid pathological diagnosis.
