About Zurich

Zürich is at the core of a constantly expanding metropolitan area that encompasses parts of central, northern, and eastern Switzerland. It is the industrial, financial, and cultural centre of the country and one of the most cosmopolitan and dynamic Swiss cities. Throughout the city centre, green space extends to the shores of Lake Zürich, which are lined by attractive public parks, and up to the slopes of Zürichberg.

Zürich's city centre and most of the city's architectural features extend along both shores of the Limmat River, which runs from the north side of Lake Zürich through the city centre and out to the west. Zürich's lively and well-preserved Altstadt (Old Town), part of the city centre, boasts an architectural legacy including the Romanesque Grossmünster, built by Charlemagne in the 700s; the 13th-century St. Peter's Church; and elegant guild houses and patrician residences, some of which are used as restaurants or for civic functions. The Fraumünster (Minster of Our Lady) is noted for its stained-glass windows designed by Marc Chagall.
