Past Event Report

Meetings International Conference successfully hosted its Sixth series on the “International Conference on Pediatrics Virtually during February 27-28, 2025. The conference was organised with a theme focused on “Future Directions in Pediatric Primary Care: From Prevention to Treatment” and it was a great success.

Eminent keynote speakers from various universities addressed the gathering.

The generous response and active participation of the organising committee members played a major role in the success of the conference. On the other hand, we take the opportunity to thank all the speakers, delegates, and participants for providing their valuable support and time for the conference.
